Michael Whitaker
Administrator
Federal Aviation Administration
800 Independence Avenue SW
Washington, DC 20591

Dear Administrator Whitaker:

On behalf of the City of Los Fresnos, I am pleased to express our strong support for SpaceX's proposal to increase the number of launches and landings of its Starship vehicle at the Starbase facility in Cameron County, Texas.

SpaceX has brought significant economic growth, job creation, and educational opportunities to our region while positioning Cameron County as a global leader in aerospace innovation. The proposed expansion of operations is vital to advancing space exploration and supporting the United States' leadership in this critical industry.

We commend SpaceX's efforts to address environmental and safety considerations and believe this initiative will continue to benefit our community and inspire future generations. We respectfully urge the FAA to approve this proposal and stand ready to collaborate to ensure its success.

Thank you for your attention and consideration.

Sincerely,

Alejandro Flores
Mayor
