

## ACTION ITEM REPORT

**Item Title:** Consideration and ACTION to approve tasking city engineering firm, Hanson Professional Services to provide estimates on various street repairs utilizing TIRZ 1 funds.

**Recommendation:**

We need to begin work on a new group of street repairs. We need to get some estimates so we can decide which ones we have funding for through the TIRZ 1, the General Fund or the CDC Fund. Hanson can do this as part of our agreement with them for engineering services and bill us accordingly for hours it takes to provide the estimates. It will not be very expensive but will be outside of our normal budgeted engineering services.

Some of the streets include: Baja Drive, Cisco Drive, W 1<sup>st</sup> from Arroyo to Nogal, West 3<sup>rd</sup> from Arroyo to almost Brazil and Nogal to the Cul-da-sac, Ebano from Ocean to 3<sup>rd</sup>, Ebano from 7<sup>th</sup> to 8<sup>th</sup>, W 5<sup>h</sup>, W 6<sup>th</sup>, W 7<sup>th</sup> and W 10<sup>th</sup> from Olmo to Nogal, Olmo from 8<sup>th</sup> to 9<sup>th</sup>, W 6<sup>th</sup> from Nogal to the cul-da-sac, Brazil from Ocean to W 8<sup>th</sup>, Mesquite from Ocean to Canal, Canal Mesquite to Arroyo and Alamo from Canal to Ocean. The last for sure have to wait until the sewer line work is completed first. Some others may need to wait for the same reasons but at least we can have them in the pipeline with cost figures to properly plan and budget of the next few years.

I recommend approval.
