

Traditional Nutcracker Archway

\$10,895.00

An 11ft walk-through archway with a nutcracker on each side holding a scrolled holiday banner. Choose Merry Christmas or Happy Holidays.

Details & Specs

The Traditional Nutcracker Archway puts two full-size nutcrackers in red coats on either side of a scrolled holiday banner, framing a walkway guests pass through on their way into your display. It stands 11 feet tall and spans 11.5 feet, sized for plaza walkways, park paths, and the entrance to a Santa set or light walk.

Place it where guests enter so the arch becomes the first photo of their visit, or set it at the end of a path as a destination. Choose the Merry Christmas banner, or Happy Holidays for venues that prefer a general greeting.

Features

- Two traditional nutcrackers joined by a holiday banner
- Walk-through design for entrances and paths
- Banner reads Merry Christmas or Happy Holidays

Santa Sofa – Red & Gold

\$3,795.00

A throne-style Santa sofa with a sculpted gold frame and red tufted seat, standing nearly 5 feet tall. Built to be the centerpiece of your Santa visit set.

Details & Specs

The Santa Sofa gives your Santa a seat that looks the part. A tall, scrolled gold frame rises behind a red tufted back with gold buttons, and wide rolled arms curl out on each side, so the whole piece reads as Santa's throne from across a mall court or lobby.

It is built for Santa visit sets at shopping centers, hotels and resorts, churches, zoos, and holiday events. The 57-inch-wide seat leaves room for Santa with a child beside him or on his knee, and the sculpted back frames every photo without extra props.

Place it in front of a tree or backdrop, add a footrest or gifts at its base, and your Santa set is ready for families. Its finished gold back means it looks complete from every angle, even in open floor plans where guests walk all the way around.

Features

- Sculpted gold frame with scrolled crest and rolled arms
- Red tufted back and seat with gold button accents
- Wide seat for Santa and a child
- Finished back, so it displays well from any side
