- The house has significant foundation issues around the perimeter. An addition was done after 1941 and has foundational problems. Parcels 10 Grove and 5 Central were part of the original parcel. It was subdivided twice. Their research revealed that Andrew L. Eckerson lived there and owned an auto shop. The porch was altered in 1996. The windows and siding were altered. Not sure if the work was permitted. If they re-do the foundation, it would be a reconstruct.

Committee members asked questions of the applicant.

Marvin Bamburg, Applicant

- The house was built by the owner's family in the 1920's. They are proposing to add a second story. The house currently covers 1,000 sf and will be expanded to 2,300 sf. It is historic because of age, and not architectural style. It is a simple cottage. The addition will be set back for two reasons. This keeps a similar street front appearance and maintains the structure of the front first floor. The kitchen at the back of the house needs to be fixed. They are available for questions.

Committee members asked questions of the applicant.

Marvin Bamburg, Applicant

- They could not find fiberglass windows with lugs. There are aluminum-clad windows with lugs. These are paintable and will be double-hung and with muntins. They will also build a new foundation for the addition and create a basement space.

Closed Public Comment.
