Dear Town of Los Gatos Representative,

Re: Application and Appeal: T20-074

I removed a Black Locust tree from 205 Lester Ln, Los Gatos, CA 95032 on 6/29/2020 as requested by Cynthia Jaen who had at that time a town permit number T20-074 issued 6/29/2020 for protected tree removal.

The tree had recently dropped 2 large heavy branches in her backyard which my crew had to cut in several sections to remove them because they were heavy and had caused indentations in the lawn from the fall.

The tree was leaning towards the power lines to the house from the utility post in the backyard, and was leaning in the direction of the neighboring house at 201 Lester Lane.

When my crew removed the tree, I noticed the tree had extensive rot in the trunk stemming from the main bifurcation at the top of the tree.

I have extensive experience in tree trimming and removal; PMC Tree Service, the company I work for has been in this service since 1970.
