Dear Karen and John,

Thank you again for talking with Jay and I yesterday .

As discussed we hard lined the window changes we agreed to in our meeting yesterday and submitted them to planning as an addendum. I felt positive that we explained the revised design in effort to clarify and answer your questions and you found our meeting to be helpful . If that is not the case please let me know. We hope you recognize are working hard to mitigate some of your concerns with our design alterations .

With that said Please let me know if I have earned your positive support for tomorrow night's planning hearing.

If you have any other question please let me know in advance of the meeting so we can proactively discuss . I am available anytime.

John, Per your request please see the attached referral for an engineer that can potentially assist Karen with her failing patio repair options. I feel there are some reasonable solution's . I'm happy to attend engineer meeting for discussion. TS/Civil engineering. 408-452-9300 ext.220.

King Regards

Mark
