

From Vinodha Bala, Applicant/Appellant, on 12/13/2023 providing more photos of the constructed eight-foot fence in the rear yard.

*Figure 1: This photo shows the immediate loss of 1-1.25 feet of fence height within 2' of the rear fence as the remainder of the yard is raised at this point and then continues to slope up towards the house.*

*Figure 2: This photo is taken from our rear deck facing the rear fence. The primary level of the house is another foot above this elevation.*
