

January 11, 2021

Ms. Melanie Hanssen, Chair Los Gatos Planning Commission Town of Los Gatos 110 E. Main Street Los Gatos, CA 95030

RE: Community Engagement Update + Visualization Updates Rebuild of Los Gatos Meadows

Dear Ms. Hanssen:

This letter supplements our justification letter of January 6, 2022, and our prior community engagement update letter of December 9, 2021, related to the rebuild of Los Gatos Meadows (the "project"), the 10.84-acre site located at 110 Wood Road (APN 510-47-038) at the intersection of Wood Road and S. Santa Cruz Avenue in Los Gatos.

Since our December 9th letter, we held our 10th neighborhood open house meeting. Given recent installation of the story poles and lead up to the Planning Commission public hearing tomorrow, it was well attended (13 neighbors). The primary focus on our update related to visual impacts and construction processes. There were several questions related to the visual impacts & simulations, construction hours/truck trips, tree removal and proposed landscaping, and building heights each of which we addressed. There were a few miscellaneous questions, not directly related to our application, but nonetheless important to our neighbors, that our team will respond to over in the next few days.

Attached herein is an updated an Updated Listing of Meetings with Neighbors and Community (Appendix D).

As previously indicated, we continue to update a Frequently Asked Questions (FAQ) document and posts this document to the Los Gatos Meadows page of the Covia web site: https://covia.org/los-gatos-meadows/

This web site also has a video summary of the overall proposed project and well as a video focusing on our plans to employ self-driving vehicles.

Respectfully,

Francesco J. Rockwood Rockwood Pacific Inc.
