Hi Valerie & Ed,

We are Janhavi & Prasad, your neighbors at 289 Marchmont Drive. We are writing this email to request your support for our home improvement plan.

We have lived here with our three kids (younger two attending Blossom Hill Elementary and the older one attending Fisher Middle) for the last eight years. You may have seen our son running laps up & down the hill in the evenings or us playing badminton in the street on summer evenings. We love our lovely neighborhood. Janhavi also works here as a doctor- MD Internal medicine at Good Samaritan hospital in addition to Valley Medical Center.

Our family has grown over the last eight years. We have decided to add a second story to our existing house to provide additional space that our family needs, rooms for kids and an extra bedroom for Janhavi to isolate in case quarantine is required since she treats hospitalized patients including those who are COVID+.

We have worked with Britt-Rowe, a Los Gatos architectural firm (Mike Rowe himself is a Los Gatos resident) to design this addition. We have added space without any demolition. We have not increased the footprint of the house. This way, we are able to preserve our outdoor space, established trees, and the driveway. We have not sought any exception, such as reduced setbacks or increased floor area, in this design. The town consulting architect, independent from the Town Planning Department, has determined that the project has followed the town's residential design guidelines, and is in character with the upper Marchmont neighborhood. The Town's Planning Department has approved the project.

The details of the project are available at:

<https://www.losgatosca.gov/DocumentCenter/View/28264/Plans---289-Marchmont-Dr>

We come to you to seek your support for our future home where we plan to raise our kids and retire. We completed a door-to-door outreach and missed you. Hence, we are reaching you via email.

If you wish to support us in our endeavor, you can reply to this email indicating:

"We support your project" or "We have no concerns".

Please be assured that your email address will not be publicly disclosed.

If you need any more details, we will be happy to answer your questions or discuss with you. Our contact details are given below:

Thanks,

Janhavi & Prasad

Hi Janhavi & Prasad,

Thank you for reaching out. I did see the sign in your front yard outlining your remodeling plan when I walked our two dogs up to Hillbrook during one of my evening walks.

We have no concerns with your addition.

Since we are considering a remodel ourselves (but not adding a second story), is your reach out something we should consider doing too? Is this a town requirement? Just curious.

Thanks,

Willem

Hi Janhavi!

It's so nice to finally know your names! Of course, we see your son running up and down the hill all of the time. He is such an inspiration to all of us!

I would be happy to support your project; however, I must disclose that I'm not the property owner at 252 Marchmont and only just rent the property through DWM Properties in Los Gatos. If you need to contact the owner for support, you can reach out to the property manager for contact information.

I wish you the best with your project. I'm sure it will be spectacular.

Susie

Hi Janhavi & Prasad,

Thanks for your note, and the heads-up on your plans. But living as far away as we do, I don't think your proposal will affect us!

Kind regards.

Doug Hembry
