- The lot is non-conforming with a steep hill. According to Bloomfield study, a garage was added in the 1950s. Nothing stayed the same. The doors and windows do not match older photos. The structure is architecturally and structurally in bad shape. The foundation is moving down the hillside. The new design will be a simple farmhouse style with historic flair to fit in the neighborhood.

Aya Singh, Owner

- The existing size of the house is 1,500 square feet, but unpermitted additions were made in the 1950s. Only 950 square feet is counted as permitted.

Closed Public Comment.

Committee Members discussed the matter.

- They are adding 360 square feet on the second floor. Adding a second-story master bedroom suite for the clients would allow their elderly parents to live on first floor. The structure was remodeled in 1980. The front was reconfigured as seen from a 1989 drawing. They tried to maintain the first-floor footprint because it supports the second floor. The loft becomes a walkway and closet. They can come up with more conventional layout and rooflines. The balcony was created for the two children.

Closed Public Comment.

Committee members discussed the matter.

- Not opposed to adding the second floor.
- The design was unusual and not consistent with the style of the house:
 - Angle of the two walls in the new bathroom;
 - Atypical roof slope line; and
 - Wrap-around second-floor deck.

MOTION: **Motion by Commissioner Mayer** to recommend that the applicant come back, at a later date with a revised design to address the atypical angle of the roofline, the angle where the two walls meet at the master bathtub, and extent of the wrap-around deck. **Seconded by Committee Member Cheskin.**

VOTE: Motion passed unanimously.

- All the windows were replaced with aluminum windows. An addition was done between 1950 to 1970. It is outside the historic district. Photos of old windows show that were replaced by aluminum windows. Some windows are vinyl.

MINUTES OF THE HISTORIC PRESERVATION COMMITTEE MEETING OF APRIL 24, 2024

- The replacement windows are the same size. They are vinyl with no grids and are high quality Milgard windows. They are an improvement over the 30-year-old windows.

Closed Public Comment.

Committee members discussed the matter.

MOTION: **Motion by Committee Member Cheskin** to recommend approval to the Director of the request for construction of exterior alterations (window replacement) on a presumptive historic residence (pre-1941) on property zoned R-1:8, with an advisory recommendation that future window replacement should be consistent with the Residential Design Guidelines. **Seconded by Commissioner Mayer.**

VOTE: **Motion passed unanimously.**

- Client's wood windows and sashes are in bad condition. Client wanted less maintenance. They selected a Marvin product with divided lites. It is wood on the interior and aluminum clad on the exterior.
- The casing will be the same. They were considering using a wood simulated and paintable product called Azek. But they can use wood if that is preferable.

Closed Public Comment.

Committee members discussed the matter.
