[EXTERNAL SENDER]

Hi Erin

On March 12th, my husband and I went to talk to the neighbors closest to us [REDACTED], Janusz and Danuta Liberkowski. We informed them that we will be doing road improvements, also on the part of the road that is on their property. Danuta told us that her and her husband support this and look forward to the project being done as it will add value to their home as well.

I have also spoken to Tina and Kirk Murray down the street [REDACTED] and they too are supporting us in our plans with the house.

In addition, we have spoken multiple times with Ken and Kristin Dickens at the bottom of the road at [REDACTED]. They too are supporting us and were surprised that nothing has happened up there yet as far as construction goes.

Subject: Neighbor

[EXTERNAL SENDER]

Erin,

[REDACTED] Just wanted to say that I went by the neighbor Stanley Hue. He was great and is very happy with what we are doing. He just didn't understand why it said "increase in height". He would've preferred the original design but is happy with this one and looking forward to us getting it going. Very sweet man.
