RE: Fence Height exception
16185 George Street

Dear Joel,

Please accept our request for a fence height exception at Roberts Rd. based on a considerable safety and security concern as specifically outlined in the zoning regulations for fence height exceptions.

We are proposing a 6 foot high wood fence (20% open).

We are concerned about the safety and liability due to that sidewalk area being used as a school pick up area and the kids may climb over or sit on the fence if it was built at the required 3 foot height. *Per Sect. 29.40.0320 exceptions, the situation demonstrates that (d) a special security concern exists that cannot be practically addressed through alternatives.*

- See Site Plan for location and description of proposed 6 foot wood fence (20% open
- See Fence Detail). *As measured to the top of posts*
- See Concept Photo of fence at corner of George Street and Mitchell

Please contact me with any comments or questions.
