

Town Council Meeting 10/1/2019

ONE WAY STREET PILOT PROGRAM RECAP

NEXT STEPS

1. Should any element of the Pilot remain after October 31?
2. Was the one-way portion of the pilot successful given the change in traffic patterns that occurred?
3. Was the diagonal parking successful?
4. Is a reduction of on street parking to achieve wider sidewalks something that should be incorporated into the parking study?
5. Other input, especially that might impact future capital investments?
