The following table provides the net clear opening width, net clear opening height and overall net clear opening area for each unit specified for the project address above and are based on engineered manufactured dimensions. The net clear opening dimensions can be provided to the local code official as may be needed to verify compliance with local requirements for emergency escape (egress) and rescue requirements.

UNIT SPECIFICATIONS

				NET CLEAR OPENING			SASH TRAVEL
ID	ROOM	PRODUCT TYPE	UNIT SIZE(in)	WIDTH(in)	HEIGHT(in)	AREA(ft²)	
116	Second Bedroom	Acclaim™ Casement - Single	35 1/2 x 52 3/4	28 1/2	47 1/4	9.3516	Full

Any requirements for emergency escape (egress) and rescue must be verified with the local code official. Some states allow replacement of the same window type or of a type that allows for a larger net clear opening without the need to meet net clear opening requirements required as for new construction.
