[EXTERNAL SENDER]

Hello

I received notification regarding the above application. I own a condo at [REDACTED]  
[REDACTED] Los Gatos Ca 95032 which has a common fence with this property which is a dealership.

I could not find details of the project as the link mentioned does not work. However I want to bring it to your notice that presently the dealership has a car washing facility where they hand wash cars constantly which creates lots of noise the whole day. Please ask the applicant to consider mitigating the noise . Options can be to relocate the washing place away from the fence and/or putting a sound proof enclosure so the noise is inside and not out in the open area.

I would appreciate more details on the project.

Thanks

Adonis Investment Roberts LLC
