Business Philosophy

With approximately 25,000 employees and more than 1,500 rental locations globally, we are the largest equipment rental company in the world. Our size and scale enable us to provide our customers with cutting-edge solutions and equipment, and our commitment to sustainability helps them operate jobsites safely, effectively and efficiently.

We occupy a unique position in the marketplace, between end-users and original equipment manufacturers (OEMs), and serve customers ranging from Fortune 500 companies to small businesses. Guided by our Work United® ethos, we partner with customers, communities and employees to find solutions with a shared commitment to service and safety. Our business model supports the circular economy by providing customers with rental access to one of the largest equipment and tool selections in the world. This enables customers to test new equipment or accomplish a specific task without having to purchase new, reducing the need to manufacture an estimated 400,000 pieces of equipment over United Rentals' 25 year history.

United Rentals serves its customers as a single-source solution, provided through two business segments: General Rentals and Specialty Rentals: General Rentals offers construction, industrial and homeowner equipment for rent, and related services. Specialty Rentals includes the rental of equipment and tools for underground construction, temporary power, power distribution, highway safety, climate control, fluid solutions, disaster recovery, tool management, modular offices, mobile storage and related services.

To serve specific sectors of its customer base, United Rentals has a comprehensive National Accounts program, industrial specialists and government sales specialists. Additional customer services are provided by the company's centralized, toll-free call centers, emergency response teams, and individuals dedicated to larger accounts, such as managed services consultants and single points of contact.

UR Worksite®

The United Rentals safety culture takes a no-compromise approach to loss prevention and safe behavior. Examples of safety initiatives include the company's Injury and Illness Prevention Program, branch safety meetings, driver safety programs and the United Academy® training and certification management portal for customers and employees.

Total Control® is United Rentals' proprietary, web-based rental management software, designed to help large customers reduce equipment consumption, control costs and drive efficiencies.

UR Control® is an online rental management platform that provides unlimited access to account details, giving customers the tools to track and control equipment costs and view all rented equipment, even across multiple accounts. With UR Control, users can request equipment pickups, submit electronic (ACH) payments, and access more than a dozen customer-specific reports that support bidding, budgeting and decision-making.

Tool Management is a service for capital projects, maintenance shutdowns and turnarounds, whereby an on-site mobile tool room is established to facilitate workflow and enhance accountability.

On-Site Shop Services are offered for major capital projects through a centralized, on-site maintenance and repair facility.

Sustainability is a major, ongoing focus of United Rentals as part of our commitment to corporate responsibility. Our company has implemented Sustainable Growth initiatives in the areas of facilities, fleet and logistics. We believe that these initiatives will result in the reduction of our total cost of operation and will safeguard

		<p>the environment, while helping our customers reduce their own carbon footprints.</p> <p>Industry Longevity Strategy</p> <p>For the past several years, as we continued to manage the impact of global economic conditions and COVID-19, we executed a strategy focused on improving the profitability of our core equipment rental business through revenue growth, margin expansion and operational efficiencies. In particular, we have focused on customer segmentation, customer service differentiation, rate management, fleet management and operational efficiency. Our general strategy focuses on profitability and return on invested capital, and, in particular, calls for:</p> <ul style="list-style-type: none"> • A consistently superior standard of service to customers, often provided through a single lead contact who can coordinate the cross-selling of the various services we offer throughout our network. We utilize a proprietary software application, Total Control®, which provides our key customers with a single in-house software application that enables them to monitor and manage all their equipment needs. Total Control® is a unique customer offering that enables us to develop strong, long-term relationships with our larger customers. Our digital capabilities, including our Total Control® platform, allow our sales teams to provide contactless end-to-end customer service; • The further optimization of our customer mix and fleet mix, with a dual objective: to enhance our performance in serving our current customer base, and to focus on the accounts and customer types that are best suited to our strategy for profitable growth. We believe these efforts will lead to even better service of our target accounts, primarily large construction and industrial customers, as well as select local contractors. Our fleet team's analyses are aligned with these objectives to identify trends in equipment categories and define action plans that can generate improved returns; • A continued focus on "Lean" management techniques, including kaizen processes focused on continuous improvement. We have a dedicated team responsible for reducing waste in our operational processes, with the objectives of: condensing the cycle time associated with preparing equipment for rent; optimizing our resources for delivery and pickup of equipment; improving the effectiveness and efficiency of our repair and maintenance operations; and implementing customer service best practices; • The continued expansion and cross-selling of adjacent specialty and services products, which enables us to provide a "one-stop" shop for our customers. We believe that the expansion of our specialty business, as exhibited by our acquisition of General Finance Corporation ("General Finance") in May 2021, as well as our tools and onsite services offerings, will further position United Rentals as a single source provider of total jobsite solutions through our extensive product and service resources and technology offerings; and • The pursuit of strategic acquisitions to continue to expand our core equipment rental business, as exhibited by our recently completed acquisition of assets of Ahern Rentals, which is discussed in note 4 to the consolidated financial statements. Strategic acquisitions allow us to invest our capital to expand our business, further driving our ability to accomplish our strategic goals.

26	Sales force.	<p>With the largest sales force in the industry, United Rentals is well poised to support the Sourcwell participating entities across the US and Canada. We approach servicing a large national account like Sourcwell through a multi-layered team approach. Brad Laws is the Government Accounts Senior Manager and is responsible for the success of the Sourcwell program at United Rentals. He is the quarterback of the US state and local government team and works in tandem with Mark Dunlop as the lead for the Canadian entities. Under Brad are six regional Government Accounts Managers that will work with the field sales team of 6,400 industry experts. Additionally, there are a team of state level Strategic Account Managers as your Single Point of Contact, Daniel Cunningham. This robust sales team is supported by branch operations and field personnel across an extensive network of approximately 1,465 North American branch locations to effectively implement, manage and service an industrial client of Sourcwell's scope. Implementing and rolling out a national contract with Sourcwell requires a concerted effort from many levels of United Rentals' organization beyond the government accounts group. Strategic Account Managers (SAM), Outside & Inside Sales Representatives (OSR & ISR), Branch & Service Managers, Delivery Drivers and Field Service Technicians will continue to maintain current relationships while implementing a new contract in areas where we are already doing business. These levels will be heavily engaged in areas where we do not currently have relationships with Sourcwell's members for contract implementation and service. Current partnerships will be built upon and modeled after.</p>
27	Dealer network or other distribution methods.	<p>Sourcwell benefits from United Rentals owning all of our fleet. The following operating efficiencies help distribute our equipment to your members quickly: Equipment Sharing Among Branches. Each branch within a region can access equipment located elsewhere in the region. This fleet sharing increases equipment utilization because equipment that is idle at one branch can be marketed and rented through other branches. Additionally, fleet sharing allows us to be more disciplined with our capital spend. Our fleet sharing policy increases equipment availability and the likelihood United Rentals will have the right equipment at the right time for your project. Should the nearest branch not have the equipment needed, United Rentals has a vast network of branches nearby allowing for flexibility in transferring of fleet to meet the needs of Sourcwell.</p> <p>Customer Care Center: We have a Customer Care Center ("CCC") located in Charlotte, North Carolina that handles all telephone calls 24/7/365 to our customer service telephone line, 1-800-UR-RENTS. The CCC handles many of the 1-800-UR-RENTS telephone calls without having to route them to individual branches, and allows us to provide a more uniform quality experience to customers, manage fleet sharing more effectively and free up branch employee time.</p>

They inspect and service each piece of rental equipment to ensure its safety and operating condition before returning it to the rental-ready fleet.</p> <p>Dispatchers: Our dispatch team coordinates all deliveries and pick-ups for the branch, prioritizing scheduled time of need and rental-ready fleet. They utilize our FAST Dispatch technology to schedule our fleet of drivers. This system allows operations personnel to assign deliveries and route trucks most efficiently, as well as track on-time performance. Delivery Vehicles are equipped with GPS technology tied to the FAST dispatch system; drivers are required to input when deliveries are made (in order to track on-time delivery) and acknowledge changes in routing from ops personnel.</p> <p>Drivers: United Rentals' has approximately 4,300 drivers company-wide that are regulated by US DOT and all safety training requirements. They inspect every truckload for safety requirements before leaving the branch or customer site. <p>29</p>	<p>Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.</p>	<p>Our Government Sales and Service Center (GSSC) will process all orders. 33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	<p>The only two geographic areas we are unable to service are Hawaii and the Northwest Territories in Canada. 34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. 36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Over the past 10 years, we have helped grow our Sourcewell contract over 450%. Our dedication to promoting this contract opportunity has resulted in \$87.6 million in revenues for 2023; up from \$15.8 million in 2014. Our team of government experts are strategically positioned across the US and Canada to market and grow this contract opportunity with the participating Sourcewell entities and our branches. We routinely introduce eligible entities to the Sourcewell program as well. United Rentals takes a three pronged approach to our marketing and sales plans: internal training, external sales and education, and customer faced marketing. You will find a comprehensive marketing plan and marketing material samples attached in the documents section. United Rentals is now also part of the NIGP Business Council. We are proudly working with government procurement experts and board members to continue the great work of the NIGP Business Council. We are actively partnering with this board to further the procurement activities within the equipment rental space as the solely industry representative on this business council. For more information, on the Business Council please utilize the following link https://www.nigp.org/suppliers/business-council .	*
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	We engage with customers through an omni-channel digital marketing strategy, allowing customers to interact with us through a variety of different platforms including our website, local Google listings, our mobile application and our social media tools. We use data to help personalize journeys for our customers, ensuring we are compliant along the way. This in conjunction with our proprietary digital management tools that provides a comprehensive digital experience for our customers.	*
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	We believe promoting the contract is a collaborative process that both Sourcewell and United Rentals are responsible for. We will continue to work together as we have over the past 10 years to promote our contract. This process has helped it grow over 450% since 2014. We plan to work with Sourcewell to make sure both organizations can articulate and promote the value proposition of the other. We collectively succeed most when we identify and promote each other's services to the participating entities. Sourcewell has a great reputation of promoting their contracts through their websites, tradeshow, marketing collateral, newsletters, and more. United Rentals has a proven track record of selling a Sourcewell contract that includes our sales process that is laid out in the provided marketing plan.	*
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	We understand that government entities have their internal purchasing systems for processing purchase orders, placing orders, and approving payment for the services. To simplify the ordering process for our government accounts we work collaboratively with them to create punch-out catalogs specific to each Participating Entities' equipment needs within their internal purchasing systems. This provides them with the flexibility of working within one system. We also recognize that not all participating entities utilize an internal punch-out and purchasing system for ordering. For these customers that prefer the ease of e-procurement via our systems, we offer our proprietary system Total Control. Total Control is more than just an e-procurement ordering process though. This is why our government customers also utilize it in combination with their internal purchasing systems to better manage their equipment - rented and owned. This is a cloud-based worksite management solution that helps customers make the most of their equipment fleet. This comprehensive, integrated suite of tools and services makes it easy to streamline their processes and cut their annual rental costs by up to a third. In addition to placing their equipment order, they can off-rent the equipment, access the location and use of rented equipment, set role-based alerts, PO tracking, auto-invoicing and more. Utilization tracking and telematics can also help them reduce the time machines sit idle, saving them money. Lastly, all orders can also be placed through our Government Sales and Service Center or locally through any of our branches. The GSSC team is available to take in orders through a single source email, phone, fax, or online. The service center will have all of the contract details for each of the various co-op partners' accounts.	*

40	<p>Describe any training programs related to this proposal such as OSHA training, safety training, specialty training like earth moving, hand tool safety, electrical safety, or other related certifications. Define if the training is offered in-person or virtually. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.</p>	<p>The technology and pace that business operates at is accelerating quickly. Yet, the way safety training is performed and tracked is quite stagnate. United Rentals invested in building the United Academy platform to replace primitive safety training and record keeping methods and to make sure that safety programs could match the pace of the projects they support. Often times, when you discover that a worker or a crew is untrained, the time involved in taking action strains a project timeline. United Academy leverages technology to avoid training related lost time, and respond quickly when you must. Quality training when you need it.</p> <p>Training is led by a team of certified trainers with years of experience in educating and protecting commercial, industrial and municipal workers and sites. Equipment familiarization and proper training are two very different concepts. Equipment familiarization is provided at no cost upon delivery of each piece of equipment. Proper certified training is per person cost through United Academy. We are providing all Participating Entities discounted United Academy Training. We can also help you determine when each is needed. Learner comprehension and learning preferences have evolved. United Academy gives you options: classroom instruction and blended learning. Schedule classroom training and certification or access blended e-learning 24/7. Ease of tracking training and certifications. Easy, real-time tracking and verification of training and certifications anytime, anywhere.</p> <p>Skilled Trainers Safety training is not new to United Rentals. In addition, we have hundreds of certified trainers and evaluators located in many of our 1,465 branches. 41	Describe any technological advances that your proposed products or services offer.	<p>We've engineered worksite performance solutions that help our customers make better, smarter, safer decisions. And we're just getting started.</p> <p>Total Control & Mobile App Keeping tabs on dozens or hundreds of pieces of rental equipment on a jobsite, including what's in use, what needs to be returned and what's awaiting delivery or pickup, is a big job. Doing it well can lead to significant cost savings and increased worker productivity. Digital technology such as the cloud-based equipment management solution Total Control® gives our customers a huge leg up. But when you're out in the field, you want to be able to work from the phone in your pocket or the tablet in your bag, not the computer back in the office or trailer.</p> <p>The United Rentals Mobile App was designed for exactly that. It puts all your equipment data at your fingertips and enables a host of easy-click actions that help you do more in less time when you're out and about.</p> <p>RFID Badges On construction projects, site access management and equipment access management are both critical to safety, security and productivity. Digital tools from United Rentals now enable customers to manage equipment access using the same RFID badges they issue to workers for site access.</p> <p>With the Next-Generation Access Management Solution, PINs aren't necessary. Rather than entering a code on a keypad ignition lock, a worker can tap their RFID-enabled ID badge on the lock's card reader to unlock a piece of equipment they are authorized to operate. On large projects, leveraging RFID badges for equipment access eliminates the need to assign PINs to hundreds or thousands of workers, reducing administrative overhead. In addition to keeping unauthorized workers off equipment, it provides accurate real-time and historical insights into equipment usage.</p> <p>Smart Turnstiles At high-traffic job sites where employees, contractors and visitors come and go throughout the day, managing entry can be challenging, yet it's critical to ensuring the safety and security of employees and other personnel. Controlling site access is also essential to protecting the public from potential hazards and guarding against theft and vandalism. Smart Turnstiles are the modern-day answer to access management through the utilization of a variety of innovative technology offerings.</p> <p>With the swipe and/or tap of a badge, key fob or other credential, smart turnstiles ensure that only people with proper authorization can pass through the entry gate. Compared with sign-in sheets, which can be bypassed even when a security guard is present, smart turnstiles are effective and efficient. Just as important, they provide real-time entry and exit data that can be quickly accessed and searched in the event of an emergency.</p> <p>Wedge WEDGE is a remote monitoring system customized to fit your site. It monitors measurements such as temperature and humidity. Sensors installed on-site feed live data to the WEDGE Dashboard. Access real-time and historical data at your fingertips and if any pre-set thresholds are exceeded, you will be notified immediately.</p> <p>Please see our Value Added document in the attachments for more details.</p>
42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>Environmental sustainability is central to United Rentals' growth strategy. We measure and manage our greenhouse gas emissions — and help customers do the same — in order to become a more resilient company and to continue delivering value to all our stakeholders. As a business based in the sharing economy, our services inherently provide an environmental benefit which we continuously build on by increasing our operational efficiency and growing our low-emission product portfolio.</p> <p>We are advancing our social and environmental responsibilities through eight Corporate Responsibility goals. Each goal was set using a rigorous analysis that considered our operations, workforce and available technology, as well as the potential advancements that will become available during the relevant time period. While these goals are challenging, we believe they are achievable through our continued dedication to progress and innovation. In addition to our goals, we have three thematic commitments to drive progress toward reducing our climate impact:</p> <p>Engaging with original equipment manufacturers and customers on low- and zero-emissions equipment opportunities.</p> <p>Exploring ways to acquire more efficient and alternatively-fueled vehicles for our sales, service and delivery fleet, which are the largest contributors to our Scope 1 emissions.</p> <p>Helping our customers track and measure greenhouse gas emissions from our rental offerings.</p> <p>Our company has implemented Sustainable Growth initiatives in the areas of facilities, fleet and logistics. Please see our Corporate Responsibility Report in the document attachments for more information on these initiatives and achievements. We believe that these initiatives will result in the reduction of our total cost of operation and will safeguard the environment, while helping our customers reduce their own carbon footprints.</p>

<p>43</p>	<p>Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.</p>	<p>It's long been believed that renting equipment, in lieu of purchasing new, brings environmental benefits. In 2022, we validated this belief by partnering with a third-party consultant to analyze our rental business model and quantify the potential environmental benefit it brings. The results revealed that our business promotes environmental sustainability in two key ways:</p> <ol style="list-style-type: none"> 1. Reducing Total Equipment Needs 2. Reducing Emissions Intensity of Equipment <p>Sustainability is also the top of mind for many in the government, industrial and construction industry. As customers look to reduce their carbon footprint and meet their sustainability objectives and those of project owners, construction equipment emissions are one area of focus.</p> <p>Buying or renting electric construction equipment is increasingly an option, but fully electric fleets are a thing of the future. In the meantime, when it comes to reducing the emissions of diesel-powered equipment, the familiar adage applies: You can't manage what you can't measure.</p> <p>Until now, companies have had very limited access to information about the environmental impacts of their rental fleet. A recently launched emissions tracking feature in Total Control®, the United Rentals cloud-based worksite management solution, offers new visibility that can help inform decision-making around fleet and fleet utilization.</p> <p>The feature enables customers to monitor the estimated greenhouse gas (GHG) emissions from their telematics-enabled rental equipment as well as source pollutants such as particulate matter, nitrous oxides and carbon monoxide.</p>
<p>44</p>	<p>Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.</p>	<p>None</p>

45	<p>What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?</p>	<p>We're proud to have been named by Forbes magazine as one of the world's top employers. Still, we never take our people for granted. They are the key to our success with Sourcewell over nearly 10 years we have been supporting this contract. Through our team of experts. United Rentals deploys \$19.99 billion of fleet (original equipment cost) through approximately 1,465 branches, a centralized reservation service and automated online ordering. Our branches are fully integrated through technology, allowing them to collaborate on solving customer needs.</p> <p>Below are some of the unique resources we bring to the Participating Entities. Please see the Value Added document for more details on the suite of services and resources we provide to the Sourcewell Participating Entities.</p> <p>Safety Our most important differentiator is safety, because of its vital importance to our employees and customers. Unsafe behavior can have a direct impact on our business and yours. Our safety culture is organized under the banner of United4Safety, which provides a way of thinking about safety in every aspect of our lives, at work and at home. United4Safety has four tenets: think safe, work safe, drive safe and live safe. We expect safety to be the primary consideration of each of our employees, and we facilitate this through innovation, leadership development, continuous learning and personal well-being. In 2023, we had a total recordable incident rate (TRIR) of 0.68, toward a goal of zero.</p> <p>Digital Solutions At United Rentals, our goal is to go beyond equipment rental. It's a digital world, and digital technology should hand customers easy victories whether they're on the worksite, in the field office or back at headquarters. United Rentals is committed to providing not only the equipment businesses need; when they need it, but the WORKSITE PERFORMANCE™ tools that will help customers work smarter, better and safer. From cloud-based worksite management tools to renting equipment directly from our mobile app, United Rentals digital solutions lead the pack. Total Control® is our proprietary software suite that provides customers with a single, transformative solution for equipment productivity. Total Control helps customers manage their equipment fleets in real time through greater visibility and accountability, with the goal of improving the utilization of resources. By reducing downtime and avoiding on-site productivity gaps, Total Control can help a customer cut annual equipment rental costs by up to a third.</p> <p>Emergency Response While United Rentals has always responded to disasters near our locations, in 2018 we began to take a more structured approach to our response. We've trained a first-responder team comprising more than 800 company volunteers across North America, whose first objective in any emergency is to help our employees and customers who have been affected. The response for every major event starts at the highest level with our executive steering committee. The committee moves quickly to assess the situation and define the logistics of the response. From there, the plan flows to the Emergency Operations Center, or EOC. Each disaster has its own EOC — a command post that sets up as close as safely possible to the disaster site. This is where the response and communications are coordinated. United Rentals can stand up an EOC in a matter of hours, bringing together region and district leaders and a cross-functional team of experts from human resources, legal, real estate, fleet management, technology and finance. The EOC sets the objectives and executes them. Our team of experts has experience in critical need situations and can put maintenance equipment on your site quickly, including:</p> <ul style="list-style-type: none"> - Complete portable sanitation solutions including hand wash stations, portable toilets and restroom trailers with hand wash stations, hand sanitizing stands, shower trailers, and laundry trailers with generators including service of waste - Power generation, fluid transfer, temporary lighting (indoor and outdoor) and site signage - Full range of HVAC products including air scrubbers, negative air machines with HEPA filtration, and portable air conditioners and heaters

Sourcewell is seeking proposals for Rental Equipment, Products, and Related Services. Awards under this solicitation will be made in three (3) separate categories. No proposer should select more than one category to respond to due to the RFP being structured such that Category 1 enables a supplier to respond with a single response that includes solutions from both categories 2 and 3. Proposers submitting a proposal in Category 1 must have at least one solution from each of categories 2 and 3. For example, if a Proposer offers at least one solution from Construction and General Rental Solutions, in addition to offering at least one solution from Public Works and Utility Equipment, the Proposer should designate it is seeking an award in Category 1 only.

Proposers seeking an award in Category 2 must include at least one solution offered within the scope of Category 2 for Construction and General Rental Solutions and no solutions from Category 3 Public Works and Public Utility Equipment.
