RE: 15171 Williams Drive Specimen Tree Report

DATE: November 12, 2024

Oscar Robles, Owner of the property located at 15171 Williams Drive, has received approval of a Floodplain Development Application (FDA) to provide an onsite stormwater management system to accommodate a proposed single-family residential development. He has also filed a Vegetation Removal Permit (VRP) application for approval to remove specified native trees on the property to construct the retention pond required by the FDA.

Mr. Robles has worked diligently with Public Works and Planning staff to plan the required stormwater management facilities in a way to preserve native trees to the maximum extent.

The VRP application includes the proposed removal of native Specimen trees within the required stormwater management pond. The location of the stormwater management pond is illustrated on Exhibit 1.

Per ULDC Section 87-035(C) (2) (i), Specimen trees are not subject to cutting, relocation, or mitigation without Town Council approval. To determine if Council approval is necessary, a native tree survey within the area of the property where the stormwater management pond is to be located was prepared by Town staff and its Arborist consultant, Ecotone Services. Per the VRP application, native trees to be removed are all located within the stormwater management pond illustrated on Exhibit 1. Each tree to be removed was individually tagged.

Native Specimen tree species to be removed include 4 Cypress with a minimum DBH of 13 inches. The following data, extracted from the survey, summarizes the trees proposed to be removed.

A. Native Specimen Trees Minimum Size (DBH) Criteria

Cypress = 13 to 17 inches

B. Location of Native Specimen Trees (Ref: Exhibit 1): Total of 4.

C. Detail of Native Specimen Trees to be Removed:

Tag Reference	Species	Diameter (DBH)
213	Cypress	14 inches
215	Cypress	13 inches
216	Cypress	17inches
217	Cypress	17 inches

Removal of all native trees, including the above list of Tag Reference Specimen trees, within the area illustrated on Exhibit 1 requires prior approval of a VRP including a mitigation plan.

Respectfully submitted,

Jim Fleischmann
Town Planning Consultant
