Agenda Item # 2b

TO: **Town Council of Town of Loxahatchee Groves**

FROM: **Francine L. Ramaglia, Town Manager**

DATE: **October 17, 2023**

SUBJECT: **Node0 Quarterly Report**

Node0 Quarterly Report

Equipment

- Public works had network equipment overhauled and updated, increasing security and effectiveness of the network.

- We are currently inspecting each desktop station to identify which ones will need to be updated or replaced. This will be completed in the first quarter of FY24.

Software

- KnowBe4 is now being utilized by all town staff and public works employees. Testing reports have shown staff that has completed the tasks are being successful in identifying threats and phishing attempts, please see Exhibit A

- KnowBe4 reporting shows the risk of cybersecurity threats has been reduced, please see Exhibit B

- We will continue to monitor usage and encourage those who are not completing tasks to do so.

- Any scores under 25% in my experience in this field indicate a very successful rollout.
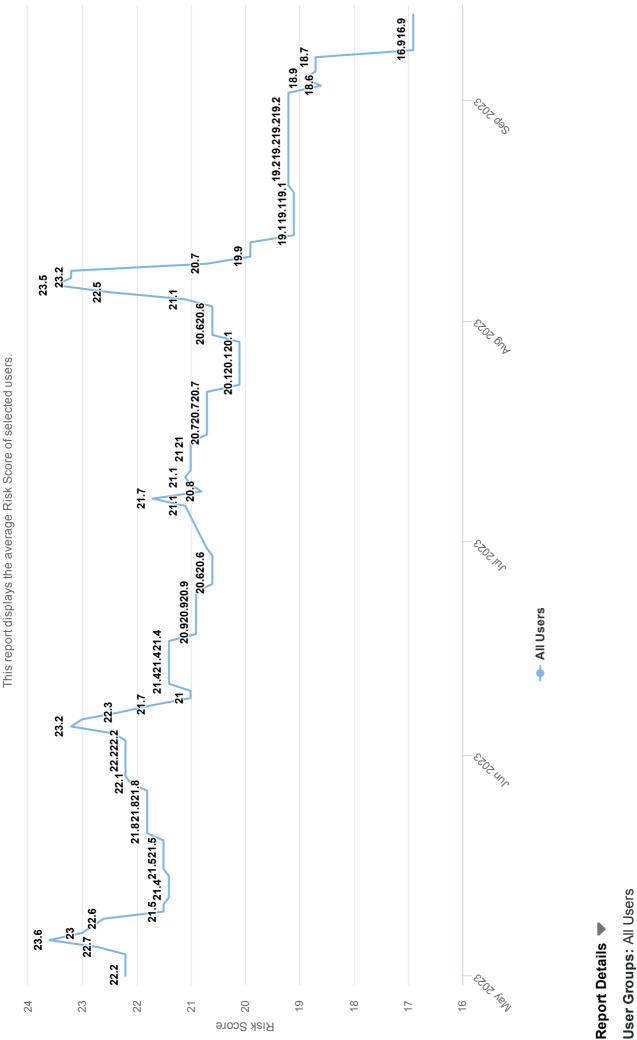

Thank you,

Patrick Price, Node0

Exhibit A – List of blocked email addresses

Item 2b

Tenant Allow/Block Lists

Domains & addresses   Spoofed senders   URLs   Files

Block external email addresses or domains to prevent communication with users in your organization (sending or receiving mail). Allow email addresses or domains by <u>submitting the email</u> to Microsoft.Le
