Attachments:	Proposed Resolution No. 1026	
Summary Statement:	<p>The Project Manual for Engineering Design and Development Standards was adopted by City Council on April 5, 2004 and was updated in November 2006 and November 2010. These standards are required by the City’s Growth Management Act and include street, water, sewer, and storm drainage standards. The manual also addresses access issues, permitting processes and procedures, and includes various forms necessary in the development process.</p> <p>In response to inquiries, changes in technology, and the direction of various City Committees, additions, deletions and/or clarifications have been made to the Project Manual for Engineering Design and Development Standards. Staff is now presenting proposed Resolution No. 1026 along with a list of revisions for Council review.</p> <p>The Public Works Committee reviewed the updates at their October 4, 2020 meeting and recommended that they be forwarded to City Council for consideration.</p>	
Recommended Action:	That City Council set a Public Hearing date of November 16, 2020 to hear comments on proposed Resolution No. 1026 – Amendment to the Project Manual for Engineering Design and Development Standards.
