Attachments:	Draft Resolution No. 23-1085	
Summary Statement:	<p>The Engineering Design and Development Standards Project Manual was originally adopted by City Council on April 5, 2004, and was last updated on January 1, 2023. These standards are required by the State’s Growth Management Act and include street, water, sewer, and storm drainage standards to be used for all new and replacement construction.</p> <p>In response to inquiries, changes in technology, and the feedback from customers, additions, deletions and/or clarifications have been made to the project manual. The manual also addresses access issues, permitting processes and procedures, and includes various forms necessary in the development process. Staff is updating the Manual annually and presents Resolution No. 23-1085 along with a list of revisions for Council review.</p> <p>The Public Works Committee reviewed the updates at their November 1, 2023, meeting and recommended that City Council set a Public Hearing for December 4, 2023, to hear comments on the proposed revisions.</p>	
Recommended Action:	That City Council set a Public Hearing date of December 4, 2023, to hear comments on Resolution No. 23-1085 Revisions to the Engineering Design and development Standards Project Manual.
