

## **Conex Box Donation Proposal**

Over the years LFD has looked at expanding our training facility.

Alcoa would like to donate their training facility to LFD.

The collection of Conex boxes would compliment our current training tower and expand our training prop capabilities. They would also provide additional storage.

Value is estimated at \$10,000 - \$12,000 and the cost to move between \$1,000 - \$2,000.

Fire District-1 has offered to assist in sharing time and cost of moving.
