		<input type="checkbox"/> Yes - Reviewed <input type="checkbox"/> No - Not Reviewed <input checked="" type="checkbox"/> Review Not Required
Attachments:	Proposed Resolution No. 1042	
Summary Statement:	<p>The Engineering Design and Development Standards Project Manual was originally adopted by City Council on April 5, 2004, and was last updated in January 1, 2021. These standards are required by the City’s Growth Management Act and include street, water, sewer, and storm drainage standards.</p> <p>In response to inquiries, changes in technology, and the feedback from customers, additions, deletions and/or clarifications have been made to the project manual. The manual also addresses access issues, permitting processes and procedures, and includes various forms necessary in the development process. Staff is updating the Manual annually and presents Resolution No. 1042 along with a list of revisions for Council review.</p> <p>The Public Works Committee reviewed the updates at their October 6, 2021 meeting and recommended that they be forwarded to City Council for consideration.</p>	
Recommended Action:	That City Council set a Public Hearing date of December 6, 2021 to hear comments on proposed Resolution No. 1042 – 2022 Update to the Engineering Design and Development Standards Project Manual.
