Interlocal Agreement		
Summary Statement:		
<p>Staff would like to renew this Interlocal Agreement with the City of Bellingham (COB) for vector waste disposal. The COB accepts street sweepings and vector waste materials and disposes of them in compliance with Department of Ecology (DOE) and Department of Health rules and regulations. Public Works would use this disposal site as an alternative to disposal at RDS which is currently less expensive.</p> <p>This would be a fifth term renewal through December 31, 2021 at the same price of \$147.56 per ton. All other terms remain the same.</p> <p>Once the City's Stormwater Decant project is complete, the interlocal agreement will not be renewed as the service will no longer be needed.</p> <p>The Public Works Committee reviewed this agreement at their February 3rd meeting and concurred to recommend approval to City Council.</p>		
Recommended Action:		
Approve the 2021 renewal to Interlocal Agreement with the City of Bellingham for Vector Waste Facility Use and Authorize the Mayor's signature.
