March 2025 Report

Monthly Call Volume Year over Year

Jan 01, 2024 12:00 AM to Apr 08, 2025 10:48 AM

Month Name	2025		2024		YTD % Change
	Grand Total - Current	% of Total Incidents - Current	Grand Total - Previous	% of Total Incidents - Previous	
January	212	30.00%	234	35.00%	-9.40%
February	235	34.00%	160	24.00%	46.88%
March	201	29.00%	216	32.00%	-6.94%
April	51	7.00%	60	9.00%	-15.00%
Grand Total	699	100.00%	670	100.00%	4.33%

As spring approaches and we are seeing more sunny days, call volume has trended slightly down. However, we are still responding to 4.33% more calls than we were this time last year. Moving into the summer months we expect call volume to once again to increase, as historically these are busier months in general for both fire and medical response.
