AFFIDAVIT

The applicant agrees that the permit applied for, if granted, is issued on the representation made herein and that the permit issued may be revoked without further notice on any breach of representation or conditions.

The applicant further understands that any permit issued on this application will not grant any right of privilege to erect any structure or to use any premises described for any purposes or in any manner prohibited by the Zoning Ordinance, or by other codes or ordinances or regulations of the City of Mackinac Island.

The Applicant further agrees to furnish evidence of the following before a permit will be granted:

- A. Proof of ownership of the property; and/or other evidence establishing legal status to use the land in the manner indicated on the application.
- B. Proof that all required federal, state, county, and city licenses or permits have been either applied for or acquired.
- C. Other information with respect to the proposed structure, use, lot and adjoining property as may be required by the Zoning Administrator in accord with provisions of the Mackinac Island Zoning Ordinance.

The Applicant further agrees to notify the Zoning Administrator when construction reaches the stage of inspection stated on the permit, if granted. Upon completion of construction to the structure(s) or land the Zoning Administrator shall inspect the premises for compliance with the Mackinac Island Zoning Ordinance and the terms of this permit. Upon determination of compliance, an occupancy permit may be issued. It is further understood that pursuant to the City of Mackinac Island Zoning Ordinance, No. 479 and amendments, adopted November 2013, unless a substantial start on the construction is made within one year, unless construction is completed within one and one-half years from the date of issuance of the permit, this permit shall come under review by the Planning Commission and may either be extended or revoked.

The undersigned affirms that he/she or they is (are) the applicant and the Owner (**specify: owner, Lessee, Architect/Engineer, Contractor or other type of interest**) involved in the application and that the answers and statements herein attached are in all respects true and correct to the best of his, her or their knowledge and belief. The applicant hereby further affirms that he/she or they has read the foregoing and understands the same. **If the applicant**

is other than the owner, then a notarized affidavit from the owner, giving the applicant permission to seek the requested zoning action on their behalf, shall also be submitted with this application.

Site Plan Review Checklist

Please Submit With The Application for Zoning Action

As a minimum, the following information shall be included on the site plan submitted for review and processing; more complex plans may require additional information as noted.

NOTE: The engineer, architect, planner and/or designer retained to develop the site plan shall be responsible for securing a copy of the City of Mackinac Island Zoning Ordinance (Ord. No. 479, effective November 12, 2013), which can be obtained via the City's website at www.cityofmi.org.

Site plan review requirements are primarily found within Article 4, General Provisions, and Article 20, Site Plan Review of the City Zoning Ordinance. References are provided whenever possible for the section of the Zoning Ordinance that deals with a particular item. When in doubt, refer to the Zoning Ordinance directly for required information.

For further information, contact Mr. Dennis Dombroski, City Building Official/Zoning Administrator, at (906) 847-4035.

Mackinac Island Planning Commission

The Harbour View Inn is submitting the plan to add an enclosed fire escape at the rear of the old La Chance building at 6860 Main Street. This will replace the old metal open fire escape on the rear of the building (Photo 2, 3, 4) to provide a 4-season safe egress path at the request of the building department. This will require the removal of siding and doors at the rear of the building, the construction of the addition. The new addition will be done to match the remainder of the building as outlined in the plans. The scope of this seasons projects will also include fire suppression for this building, air conditioning updates (Photos 5, 6, 7, 9, 10, 11, 12, 13) for the campus of buildings as well as some rot repairs and roofing updates that is being submitted in concert with the Historic District Commission.

The brick paver walkways have not been finalized by the landscape architect. The existing and the future walkways will continue to be over a bed of natural sand. At this time the zoning ordinance still considers all brick pavers as impenetrable surface based on a known accidental change to the ordinance. This project would need a variance to the lot coverage based on the brick walkways or an update to return the ordinance to it historical form.

Most of the Site Plan Review Checklist items are included in the attached drawings. Below you will find narrative on the remaining items for your review.

This project will have no material effect on adjoining lands and occupants.

We plan to deliver freight for construction to the Main Street side of the building and to the back of the structure via Bogan Lane and Church Street. Material will be stored in the front yard as well as the flat areas in the rear of the buildings. We anticipate making a city council request for dumpsters and telehandler for construction and the typical vehicle request for the waterline installation and paving of Bogan Lane when the street cut is restored. We do not anticipate any fencing needs for safety but will work with the building and fire departments on any needs they see to provide a safe worksite for the public over the winter including markers that identify the dumpster(s) that are lit at night.

The proposed start dates are with the end of the season in 2024. We anticipate completion by April 15th 2025. Their will be additional phase 2 work in the winter of 2025/2026.

We do not anticipate this project to have any change to the exiting community services, water supply, solid waste, sanitary sewer or water drainage.

The demolition of the existing metal staircase on this project is minimal and we have not provided the items on the demolition check list. While digging the new foundation should we find any unknown historic or archeological remains we will immediately shop and make the required notification to the City.

We are looking to also replace items in a "like for like" fashion on the project. They include Rot on the windows at the Chateau building (Photo 1), roof shingle replacement on Chateau (Photo 1) and the bridgeway between guesthouse and carriage house buildings (Photo 14), rot on porches and hand railings, and rot on wood pillars (Photo 15,16,17,18).

Respectfully submitted

Sam Barnwell
