Subject: Re: 2 Permit Applications

Hello City Clerk,

I would prefer not to leave it on the street overnight. It most definitely fits on either the left side or right side of the church's front lawns. It would be parked on the lawn in its stowed position overnight. We would bring plenty of orange pylons to put around it during the day if it happens to be partially parked over the sidewalk or on the street to direct foot, bicycle, horse carriage traffic around it. If there is any other preferred method, please let us know and we will be more than happy to oblige.

Hello Rene,

Thank you for sending these over, I will get them added to our October 16th agenda.
Is your plan to leave the lift on the street each night?

Subject: 2 Permit Applications

Hello City Clerk,

Attached are two Permit Applications. We are painting the exterior of Mission Church and these permits are just so that we can reach the high portions of the South facing elevation and the bell tower. 1 permit is for the use of an 80' boom lift to get to the high portions and the other permit for the boom lift being potentially parked on the sidewalk or on the street in front of Mission Church. The proposed dates are between November 4 and November 11, 2024. We may be done quicker than the proposed dates so we can remove the boom lift off the island. We are overnighting the Permits along with the Permit Fees to your address. Please let me know if I am missing anything.
