Subject: Service company

Hey Danielle

In the event that Arnold Freight is unable to bring our truck and trailers to the Beaver Dock we will need the Service Company to bring our trailers to Mission Point. I just spoke with Ray at the Service Company and he informed me that he would not be able to transport our games by drey, as it is too much of a risk. He instead advised that he could pull our trailers down to Mission Point where we can load them as that option would be much safer for the horses and drivers. Please let me know if this works for you.

Thanks,
