20 February 2026

B5. A general description of the proposed development.

- Install a raised rear deck for patron seating.
- Convert the existing Storage Building into a new Café.
- Demolish and reconstruct the 1<sup>st</sup> floor store fronts with historic detailing
- Remove and reinstall a portion (21 feet) of the interior first floor and floor structure.
- Excavate a portion of the basement (21 feet) to match the existing basement depth. Remove and reconstruct the basement foundation wall along the Main Street Property Line.
- Renovate and reconfigure portions of the 2<sup>nd</sup> floor apartment layouts to provide an additional apartment and an office annex.
- Re-roof the building.
- Scrape and paint the existing, historic siding. Replace any rotted or deteriorated trim or siding boards.

B6. Condominium subdivision project site plans shall also include the name and address of the planner, design engineer or surveyor who designed the project layout and any interest he holds in the land.

Not Applicable

For Items C1 thru C8, C11, and C13: Refer to the Site Survey and Architectural Site Plan included with our submittal for additional information.

C7. Regarding delivery and loading areas:

Currently the three active businesses utilize the island's dray service with deliveries and general trash service from the Main Street frontage. Propane, building supplies, and other incidental deliveries will occur thru the adjacent alley directly from the Coal Dock. Café food waste will also use this alley and the adjacent Coal Dock.

C8. The location, use and size of open spaces together with landscaping, screening, fences, walls and proposed alterations of topography or other natural features shall be indicated.

Aside from the removal of existing decks and fencing and the construction of a new deck, there are no proposed changes or alterations to site, topography or natural features.

C9. The proposed operations on the site shall be described, in writing, in sufficient detail to indicate the effect, if any, upon adjoining lands and occupants with any special features which are proposed to relieve any adverse effects to adjoining land and occupants. Any potential demands for future community services will be described, together with any special features which will assist in satisfying such demands.

The only "proposed operation on the site" shall be exterior dining.

And no "special features" are being proposed.

And no "special demands for future community services" are being requested.

C10. Any earth-change plans required by state law shall also be submitted with the application.

No changes to the existing grading are currently being proposed.

20 February 2026

C12. A general description and location of stormwater management system shall be shown on the grading plan, including pre- and post-site development runoff calculations used for determination of stormwater management, and location and design (slope) of any retention/detention features.

No changes to the existing stormwater management system are currently being proposed.

C13. Any feature of the proposed development that would directly or indirectly impact a public right-of-way, public utility, or adjoining property.

Any impacts would be incidental to the development.

The sidewalk along Main Street will need to be replaced once foundation work is complete.

The street will be disrupted to make new utility connections – water, sewer, and fire sprinkler.

C14. A freight hauling plan shall be shown to demonstrate how the materials, equipment, construction debris, and any trash will be transported to and from the property, what, if any motor vehicles may be needed for the project. (Applicant is responsible for ensuring frost laws do not delay necessary actions of this plan).

Due to the proximity of the Coal Dock, the only motor vehicles that will be needed for this project will be the excavator for the basement work and a dump truck for moving bulk materials to and from the British Landing Dock.

Materials, equipment, trash, and construction debris will all be brought to and from the project directly from the adjacent Coal Dock. Either to the front of the building, or directly from our rear deck and onto the adjacent dock, pending an agreement with the City.

Vehicles and any dry cement mixes or gravels will be delivered to the site from the British Landing Dock. Similarly, any excavated soils will be taken off the island from the British Landing Dock and disposed of on the mainland.

C15. A construction staging plan shall be shown to demonstrate where and how materials, equipment, construction debris, trash, dumpsters and motor vehicles will be stored and secured during construction. This plan shall ensure the site is kept clean, show how construction debris and trash will be controlled, and how safety issues will be secured including any necessary fencing or barriers that will be needed.

Fencing will be provided along the curb line to protect the public from the basement excavation. Space available on site is extremely limited. At the end of every workday and when not in use for more than 24-hours, all materials, equipment, construction debris, trash and motor vehicles that cannot be stored inside the building (or in the rear yard) will be stored on the adjacent Coal Dock, pending an agreement with the City.

C16. Proposed construction start date and estimated duration of construction.

Construction Start Date: November 1<sup>st</sup>, 2026.

Construction Duration: 12 months.

C17. Such other information as may be determined to be necessary by the planning commission because of any peculiar features of the proposed development.

None requested.

D1. Site plan of property where demolition is going to take place. This plan shall include structure(s) being demolished, location of utilities, septic tanks, an itemized statement of valuation of demolition and restoration work to be performed, or other such items as may be required by the building official.

20 February 2026

Refer to the provided Site Survey and Architectural Site Plan and Site Demolition Plan. Portions of the existing exterior rear decks are proposed to be demolished, but otherwise, all demolition is largely going to be on the interior of the impacted structures.

D2. Copy of asbestos survey if required by EGLE or other state department.  
Not applicable.

D3. Results of a pest inspection and, if necessary, a pest management plan.  
Not applicable.

D4. Plans for restoring street frontage improvements (curb closure, sidewalk replacement, street patch, or other items as required by the building official). These items will not be required if building permits for redevelopment have been applied for or if redevelopment is planned within six months. In such case, the cash bond will be held until building permits for redevelopment are issued or improvements are complete. Completion shall not be deferred more than six months. Temporary erosion control and public protection shall be maintained during this time.

Not applicable as the demolitions currently proposed are intended to be completed as part of the building renovation and under the same City Building Permit.

D5. A written work schedule for the demolition project. Included in this may be, but are not limited to, street closures, building moving dates, right-of-way work, or other items as required by the building official.

Refer to item C.16 above and the provided Site Survey and Architectural Site Plan

No buildings are proposed to be removed or relocated.

No streets are proposed to be closed during the execution of this work.

D6. Acknowledgement:

Let it herewith be acknowledged that if any unknown historic or archeological remains are discovered while accomplishing the activity authorized by a permit granted by the city, all work must immediately stop and notification of what was discovered must be made by the applicant to the city as well as any other required offices. The city will initiate the federal and state coordination required to determine if the remains warrant a recovery effort or if the site is eligible for listing in the National Register of Historic Places.
