Subject: Re: Permission to use Annually Permitted Equipment at Manor V

Danielle,

I was also informed neighborhood kids have been playing in them at time, which can be dangerous if the wind blows them over or they pull on them. FYI.

Danielle,

I am seeking permission to use our annually permitted equipment (Kubota & Avant) at Manor V until Friday to plant the trees that are sitting in front of the duplexes. We would like to accomplish this on the poor weather days so it has the least impact on our neighbors and guests. Our landscaping crew is available and we will keep equipment off Forest Dr and on Manor V property. Our neighbors have been inquiring about the trees often and we would like to finish up so everyone is happy riding through the area. Let me know if you have any questions or concerns. Thank you!
