Replace exterior porch door on Meta Mura, 8161 Park Ave.

Puttkammer Family

We would like to replace our current exterior porch door with the replacement door pictured. We need a sturdy material because the door is exposed to rain, wind, snow, etc. We ordered a fiberglass door to help withstand all kinds of weather. The current wood door is only about 10 years old (Mike Gamble installed it), and is already rotting. Mike Gamble mentioned at that time that a fiberglass door is the best material for that situation, and that if we ever replaced the door then fiberglass is the way to go. We will paint the door to look exactly like the previous one. The door does not face the street and is not visible to anyone except for people already on the property.

We ask the HDC for permission to install a slightly different style of door that will serve the needs of the house for many years to come.

Thank you for your consideration,

Meta Valentic and Nancy Puttkammer
