Hi Katie.

I would like to extend the fence project for another year. We would like to start the project in November. Thank you for the heads up on the dates. Greatly appreciated

Have a great weekend!

Andrew,

Your zoning permit for a fence at 1264 Mission Street is going to expire on May 13, 2026. Bam said that the project was never done. If you still want to do this project you need to request an extension of the permit before it expires. Thank you.
