

- 1) Due to the nature of the funding that we received the project needs to be completed in one calendar year. That date is September 1, 2024, which was the start of our fundraising campaign. If we do not complete the project by then we will lose \$50,000.00.
- 2) The sports coating needs to be installed while the weather is consistently over 40 degrees. This includes night temperatures.
- 3) Currently, the incomplete court is used daily by both youth and adults. The court provides mental health benefits (socialization between players) and physical health benefits (low impact physical activity).
- 4) This was not able to be finished in the spring because we had to wait for the asphalt to be first installed. This was a weather issue. The weather has to be at a certain temperature for the asphalt to be installed.
- 5) Installation will take 3-4 days with the use of the courts a week after they are installed.
- 6) The State Park said that we could move the material if we had it to the park by 8:00 am the latest.
