

Firearms Training Notification – October 14th

The Police Department will be conducting a scheduled Firearms Training exercise on Tuesday, October 14th, from 2:00 PM to 6:00 PM. The training will take place within the designated area of the State Park, and clearance has been obtained from State Park officials (Johnsonm54@michigan.gov). In case of poor weather, the training will be rescheduled for Wednesday, October 22nd.

This training serves two key purposes:

- To enhance our department's firearms training standards.
- To meet the State's updated requirements for law enforcement training, known as CPE (Continuing Professional Education).

As our department is also responsible for ensuring our seasonal employees complete their CPE requirements prior to the end of their service in late October, this session is essential to fulfilling both State and departmental obligations.

We recognize the importance of minimizing any potential disruptions. Therefore, all horse/taxi-related entities and the airport will be contacted in advance of the training to provide notice and ensure community awareness.

If the Council has any questions or requires further details, please let us know.

Respectfully,
Justin Bradford
Corporal
Mackinac Island Police
