(11/8/2018)

Hi Myron,

Thanks again for your confirmation on the Bonzheim project.

For the **Jaquiss residence**, delivery and set are scheduled for November. From what I recall, we already have letters on file for this project from a year or more ago, but I'd like to confirm we're covered.

Our plan is to **stage 3–4 modules at a time** at British Landing until we receive clearance to mobilize and stage at Mission Point starting **Monday, November 3rd, 2025**. The set is scheduled for **Tuesday, November 11th, 2025**.

We'll also be sending John to the island to double-check trees along the delivery route — the same route we used for Jim's modules. After the recent ice storm, there are still trees sticking into the road and a number of lower-hanging branches. I biked and jogged the route myself last time I was on the island and noticed some issues. I assume it will be acceptable to work this out with Larry Rickley?

I just wanted to connect with you before we begin moving equipment to ensure everything is aligned.

Thanks again for your time and guidance,

Ryan Spencer

Ryan,

Dickinson Homes is granted authorization to use the British Landing State Dock and M-185 for the movement of the modules.

All movements must be completed within the parameters and restrictions put forth within approved motor vehicle permits that must be obtained by Dickinson Homes from both Mackinac Island State Park and the City of Mackinac Island.
