Subject: Manoogian Art Truck

Good morning Danielle!

I know there is going to be additional discussion regarding the arrival of the Manoogian Art Truck to the island this week at the City Council Meeting.

I had originally asked for it to be brought over on Friday, May 23rd after 6pm and escorted to the hotel that evening to be secured behind our building. That has been the historic date and timing in the past, but I understand you do not want it to be on the road that evening.

Can I have it come over with the Creative Day Technology truck that the city permitted for arriving at 6:30am on that Friday morning? I spoke with Arnold Freight, and they can bring them both over that morning and both can come up to the hotel together. Would that work for the city?

It would be difficult to have the art arrival at an earlier date and be securely stored until the space is open to hang it up on Saturday, May 24th. Let me know what you think of this as a solution or if I need to go back to the drawing board.

Mary Beth
