Dennis, Danielle,

Hope your Christmas was great. I have a handful of permit apps coming your way this AM. All are short fiber placements, and pretty straight forward.

This one is for the water treatment plant at 5951 M-185. It's a short bore from out existing fiber HH at the Verizon site 300' to the South. All work will be in the greenbelt. No road crossings or concrete restoral foreseen. The actual bore starts on Print 3 of the attached. The fist couple prints are just doing some splicing in existing fiber already placed.

Have a great New Years!
