Danielle,

It's that time of year again that Mission Point kindly asks the City Council to approve events that will have alcoholic beverages served on the Great Lawn. There are four events this year - Bayview Yacht Club Event, Chicago Yacht Club Event, and Mackinac Island Swim Event are all pretty much the same as previous years. I attached the diagrams for those events. There is nothing special this year that I'm aware of, just the usual stage for the bands and such which of course we will do a vehicle permits for when the time comes to fill those out. This year, there is also one wedding who wants to do a "champagne toast" near the Gazebo. It will be within the confines of the natural barrier surrounding the Gazebo area. I attached a list of the four events. Can you please let me know which City Council meeting we could expect this discussion to take place at?

Thank you,
