Reason Vehicle is Needed: Lifting Shingles/Cleaning Debris/Man Lift.

Explanation of why the work cannot be reasonably performed, accommodated, or accomplished by a horse drawn dray (documentation & photos of equipment & materials may be required):

The Shingles can be transported by a horse, but lifting the shingles to the eave of the roof will result in a faster install which is crucial because shingles do not seal in cold weather. This equipment will also provide better debris control using a bucket attachment by not allowing shingles to slide off the roof smashing onto the ground. We also need to be suspended in the air to fix some siding on the building, which is roughly 25ft in the air.

Vehicle Description: Tellehandler

6k lb rental tellehandler
