Dave, Danielle,

Hope all is well! As previously discussed, this is the permit application for a short fiber bore (approx. 50ft) under Cadotte for the May House. The remainder of the work will be on the customer prem and in existing innerduct. This project will be worked along side with the one I sent over for the Medical Center on Market St in the same vacinity. There is no pedestrian or traffic conflicts expected. I did the site survey last week with Dave and the UCI foreman Mike Dwyer.

Regards,

Jeff Collard

AT&T OSP Design Engineer
