File No. R124-025-004
Exhibit C
Date 1-24-24
Initials JM

Dear Planning and Building Department:

As the owner of the above-referenced property, I am seeking Planning Commission approval for construction of a dock. In support of the request, enclosed are the following documents:

1. Application for Zoning Action
2. Site Plan Review Checklist
3. Check payable to the City in the amount of \$150.00 for the application fee
4. Notice of Authorization from EGLE dated December 21, 2023, wherein the State of Michigan approved the construction of the proposed dock
5. Topographical survey with hand-written notes depicting set-back and location consistent with EGLE approval
6. Clean copy of topographical survey
7. Topographical survey including Lake Huron elevations and soundings

In support of the application, consistent with the requirements found in Section 20.04 and elsewhere in the City Code of Ordinances, I offer the following:

- There will be no adverse effect on adjoining lands.
- No freight hauling plan is applicable as all materials and construction will be performed by Breezeswept of Cedarville, Michigan, consistent with the plan approved by EGLE, complete contained on their barge.
- No motor vehicle permit is required, and all trash, debris and other construction materials will also be completely retained on the Breezeswept barge and removed by the Breezeswept barge.

- Construction is proposed for the spring or summer of 2024. The exact time is weather dependent as the barge travels from Cedarville, Michigan and needs favorable weather.
- Estimated duration of construction is 2 days.

If I failed to provide any necessary information or if you have questions, please furnish those to me prior to the hearing in order that I may supplement the application.

Very truly yours,

James J. Murray

STATE OF MICHIGAN)
COUNTY OF MACKINAC) ss.

AFFIDAVIT

The applicant agrees that the permit applied for, if granted, is issued on the representation made herein and that the permit issued may be revoked without further notice on any breach of representation or conditions.

The applicant further understands that any permit issued on this application will not grant any right of privilege to erect any structure or to use any premises described for any purposes or in any manner prohibited by the Zoning Ordinance, or by other codes or ordinances or regulations of the City of Mackinac Island.

The Applicant further agrees to furnish evidence of the following before a permit will be granted:

- A. Proof of ownership of the property; and/or other evidence establishing legal status to use the land in the manner indicated on the application.
- B. Proof that all required federal, state, county, and city licenses or permits have been either applied for or acquired.
- C. Other information with respect to the proposed structure, use, lot and adjoining property as may be required by the Zoning Administrator in accord with provisions of the Mackinac Island Zoning Ordinance.

The Applicant further agrees to notify the Zoning Administrator when construction reaches the stage of inspection stated on the permit, if granted. Upon completion of construction to the structure(s) or land the Zoning Administrator shall inspect the premises for compliance with the Mackinac Island Zoning Ordinance and the terms of this permit. Upon determination of compliance, an occupancy permit may be issued. It is further understood that pursuant to the City of Mackinac Island Zoning Ordinance, No. 479 and amendments, adopted November 2013, unless a substantial start on the construction is made within one year, unless construction is completed within one and one-half years from the date of issuance of the permit, this permit shall come under review by the Planning Commission and may either be extended or revoked.

The undersigned affirms that he/she or they is (are) the applicant and the owner (specify: owner, Lessee, Architect/Engineer, Contractor or other type of interest) involved in the application and that the answers and statements herein attached are in all respects true and correct to the best of his, her or their knowledge and belief. The applicant hereby further affirms that he/she or they has read the foregoing and understands the same. If the applicant is other than the owner, then a notarized affidavit from the owner, giving the applicant permission to seek the requested zoning action on their behalf, shall also be submitted with this application.

Site Plan Review Checklist

Please Submit With The Application for Zoning Action

As a minimum, the following information shall be included on the site plan submitted for review and processing; more complex plans may require additional information as noted.

NOTE: The engineer, architect, planner and/or designer retained to develop the site plan shall be responsible for securing a copy of the City of Mackinac Island Zoning Ordinance (Ord. No. 479, effective November 12, 2013), which can be obtained via the City's website at www.cityofmi.org.

Site plan review requirements are primarily found within Article 4, General Provisions, and Article 20, Site Plan Review of the City Zoning Ordinance. References are provided whenever possible for the section of the Zoning Ordinance that deals with a particular item. When in doubt, refer to the Zoning Ordinance directly for required information.

For further information, contact Mr. Dennis Dombroski, City Building Official/Zoning Administrator, at (906) 847-4035.

Optional Preliminary Plan Review Informational Requirements (Section 20.03)

<u>Item</u>	<u>Provided</u>	<u>Not Provided or Applicable</u>
1. Name and address of the applicant or developer, including the names and addresses of any officers of a corporation or partners of a partnership	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Legal description of the property	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Sketch drawings showing tentative site plans, property boundaries, placement of structures on the site, and nature of development	<input checked="" type="checkbox"/>	<input type="checkbox"/>

**Site Plan Informational
Requirements (Section 20.04, B and C)**

<u>General Information</u>	<u>Provided</u>	<u>Not Provided or Applicable</u>
1. Name and address of the applicant or developer, including the names and addresses of any officers of a corporation or partners of a partnership. For condominium subdivision project site plans, also include the name and address of the planner, design engineer or surveyor who designed the project layout and any interest he holds in the land.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Name and address of the individual or firm preparing the site plan	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Scale of not greater than one 1 in = 20 ft for a development of not more than three acres and a scale of not less than 1 in = 100 ft for a development in excess of three acres	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Legend, north arrow, scale, and date of preparation	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Legal description of the subject parcel of land	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Lot lines and general location together with dimensions, angles, and size correlated with the legal description of the property	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Area of the subject parcel of land	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Present zoning classification of the subject parcel	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Written description of the proposed development operations	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Written description of the effect, if any, upon adjoining lands and occupants, and any special features which are proposed to relieve any adverse effects to adjoining land and occupants	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. A freight hauling plan shall be shown to demonstrate how the materials, equipment, construction debris, and any trash will be transported to and from the property, what, if any motor vehicles may be needed for the project. (Applicant is responsible for ensuring frost laws do not delay necessary actions of this plan).	<input checked="" type="checkbox"/>	<input type="checkbox"/>

- | | | |
|---|-------------------------------------|--------------------------|
| 12. A construction staging plan shall be shown to demonstrate where and how materials, equipment, construction debris, trash, dumpsters and motor vehicles will be stored and secured during construction. This plan shall ensure the site is kept clean, show how construction debris and trash will be controlled, and how safety issues will be secured including any necessary fencing or barriers that will be needed. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 13. Proposed construction start date and estimated duration of construction. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 14. Other information pertinent to the proposed development, specifically required by the Zoning Ordinance, and/or as may be determined necessary by the City Planning Commission | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Natural Features

- | | <u>Provided</u> | <u>Not Provided
or Applicable</u> |
|---|-------------------------------------|---------------------------------------|
| 15. Location of natural features such as wood lots, streams, wetlands, unstable soils, bluff lines, rock outcroppings, and similar features (see also Section 4.26) | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 16. Topography of the site with at least two- to five-foot contour intervals | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 17. Proposed alterations to topography or other natural features | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 18. Earth-change plans, if any, as required by state law | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Physical Features

- | | <u>Provided</u> | <u>Not Provided
or Applicable</u> |
|---|-------------------------------------|---------------------------------------|
| 19. Location of existing manmade features on the site and within 100 feet of the site | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 20. Location of existing and proposed principal and accessory buildings, including proposed finished floor and grade line elevations, height of buildings, size of buildings (square footage of floor space), and the relationship of buildings to one another and to any existing structures on the site | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 21. For multiple family residential development, a density schedule showing the number of dwelling units per acre, including a | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

dwelling schedule showing the unit type and number of each such units

- | | | |
|--|-------------------------------------|--------------------------|
| 22. Existing and proposed streets, driveways, sidewalks and other bicycle or pedestrian circulation features | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 23. Location, size and number of on-site parking areas, service lanes, parking and delivery or loading areas (see also Section 4.16) | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 24. Location, use and size of open spaces together with landscaping, screening, fences, and walls (see also Section 4.09 and Section 4.21) | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 25. Description of Existing and proposed on-site lighting (see also Section 4.27) | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Utility Information

Provided

Not Provided
or Applicable

- | | | |
|--|-------------------------------------|--------------------------|
| 26. Written description of the potential demand for future community services, together with any special features which will assist in satisfying such demand | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 27. Proposed surface water drainage, sanitary sewage disposal, water supply and solid waste storage and disposal (see also Section 4.13) | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 28. Location of other existing and proposed utility services (i.e., propane tanks, electrical service, transformers) and utility easements (see also Section 4.13) | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 29. Written description and location of stormwater management system to be shown on a grading plan, including pre- and post-site development runoff calculations used for determination of stormwater management, and location and design (slope) of any retention/detention features (see also Section 4. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

**Site Plan Informational (Demolition)
Requirements (Section 20.04, D)**

<u>Demolition</u>	<u>Provided</u>	<u>Not Provided or Applicable</u>
1. Site plan of property where demolition is going to take place. This plan shall include structure(s) being demolished, location of utilities, septic tanks, an itemized statement of valuation of demolition and restoration work to be performed, or other such items as may be required by the building official.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2. Copy of asbestos survey if required by EGLE or other state department.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. Results of a pest inspection and, if necessary, a pest management plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4. Plans for restoring street frontage improvements (curb closure, sidewalk replacement, street patch, or other items as required by the building official). These items will not be required if building permits for redevelopment have been applied for or if redevelopment is planned within six months. In such case, the cash bond will be held until building permits for redevelopment are issued or improvements are complete. Completion shall not be deferred more than six months. Temporary erosion control and public protection shall be maintained during this time.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5. A written work schedule for the demolition project. Included in this may be, but are not limited to, street closures, building moving dates, right-of-way work, or other items as required by the building official.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6. Acknowledgment that if any unknown historic or archeological remains discovered while accomplishing the activity authorized by a permit granted by the City, all work must immediately stop and notification of what was discovered must be made by the applicant to the City as well as any other required offices. The City will initiate the Federal and state coordination required to determine if the remains warrant a recovery effort or if the site is eligible for listing in the National Register of Historic Places.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**Architectural Review
Informational Requirements (Section 18.05)**

<u>Item</u>	<u>Provided</u>	<u>Not Provided or Applicable</u>
1. Name and address of the applicant or developer, including the names and addresses of any officers of a corporation or partners of a partnership	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2. Legal description of the property	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. Drawings, sketches and plans showing the architectural exterior features, heights, appearance, color and texture of the materials of exterior construction and the placement of the structure on the lot, and any additional information determined necessary by the planning commission to determine compliance with the architectural standards (see also Section 18.06)	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4. Photographs of existing site conditions, including site views, existing buildings on the site, streetscape views in all directions, and neighboring buildings within 150 feet of the site.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

NOTICE OF AUTHORIZATION

Permit Number: WRP039894 v. 1
Site Name: 49-6859 Main St.-City of Mackinac Island

Date Issued: December 21, 2023
Expiration Date: December 21, 2028

The Michigan Department of Environment, Great Lakes, and Energy (EGLE), Water Resources Division, P.O. Box 30458, Lansing, Michigan 48909-7958, under provisions of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended; specifically:

- Part 31, Floodplain Regulatory Authority of the Water Resources Protection.
- Part 301, Inland Lakes and Streams.
- Part 303, Wetlands Protection.
- Part 315, Dam Safety.
- Part 323, Shorelands Protection and Management.
- Part 325, Great Lakes Submerged Lands.
- Part 353, Sand Dunes Protection and Management.

File No. RI24-025-006

| <input type="checkbox"/> Part 31, Water Resources Protection (Floodplain Regulatory Authority) | |

EGLE certifies that the activities authorized under this permit are in compliance with the State Coastal Zone Management Program and certifies without conditions under the Federal Clean Water Act, Section 401 that the discharge from the activities authorized under this permit will comply with Michigan's water quality requirements in Part 31, Water Resources Protection, of the NREPA and associated administrative rules, where applicable.

Permission is hereby granted, based on permittee assurance of adherence to State of Michigan requirements and permit conditions, to:

Authorized Activity:

Install a permanent 128-foot-long by 8-foot-wide, elevated, open pile dock constructed of wood.
Authority granted by this permit does not waive any jurisdiction of the United States Army Corps of Engineers or the need for a federal permit.
All work shall be completed in accordance with the attached plans and the terms and conditions of this permit.

**Waterbody Affected: Lake Huron
Property Location: Mackinac County, Mackinac Island, T40N/R03W/Section 24
Property Tax No. 051-525-025-10**

**EGLE

Expires On: 12/21/2028**

Authority granted by this permit is subject to the following limitations:

- A. Initiation of any work on the permitted project confirms the permittee's acceptance and agreement to comply with all terms and conditions of this permit.
- B. The permittee, in exercising the authority granted by this permit, shall not cause unlawful pollution as defined by Part 31 of the NREPA.
- C. This permit shall be kept at the site of the work and available for inspection at all times during the duration of the project or until its date of expiration.
- D. All work shall be completed in accordance with the approved plans and specifications submitted with the application and/or plans and specifications attached to this permit.
- E. No attempt shall be made by the permittee to forbid the full and free use by the public of public waters at or adjacent to the structure or work approved.
- F. It is made a requirement of this permit that the permittee give notice to public utilities in accordance with 2013 PA 174 (Act 174) and comply with each of the requirements of Act 174.
- G. This permit does not convey property rights in either real estate or material, nor does it authorize any injury to private property or invasion of public or private rights, nor does it waive the necessity of seeking federal assent, all local permits, or complying with other state statutes.
- H. This permit does not prejudice or limit the right of a riparian owner or other person to institute proceedings in any circuit court of this state when necessary to protect his rights.
- I. This permit shall not be assigned or transferred without the written approval of EGLE.
- J. Failure to comply with conditions of this permit may subject the permittee to revocation of permit and criminal and/or civil action as cited by the specific state act, federal act, and/or rule under which this permit is granted.
- K. All dredged or excavated materials shall be disposed of in an upland site (outside of floodplains, unless exempt under Part 31 of the NREPA, and wetlands).
- L. In issuing this permit, EGLE has relied on the information and data that the permittee has provided in connection with the submitted application for permit. If, subsequent to the issuance of a permit, such information and data prove to be false, incomplete, or inaccurate, EGLE may modify, revoke, or suspend the permit, in whole or in part, in accordance with the new information.
- M. The permittee shall indemnify and hold harmless the State of Michigan and its departments, agencies, officials, employees, agents, and representatives for any and all claims or causes of action arising from acts or omissions of the permittee, or employees, agents, or representative of the permittee, undertaken in connection with this permit. The permittee's obligation to indemnify the State of Michigan applies only if the state: (1) provides the permittee or its designated representative written notice of the claim or cause of action within 30 days after it is received by the state, and (2) consents to the permittee's participation in the proceeding on the claim or cause of action. It does not apply to contested case proceedings under the Administrative Procedures Act, 1969 PA 306, as amended, challenging the permit. This permit shall not be construed as an indemnity by the State of Michigan for the benefit of the permittee or any other person.
- N. Noncompliance with these terms and conditions and/or the initiation of other regulated activities not specifically authorized shall be cause for the modification, suspension, or revocation of this permit, in whole or in part. Further, EGLE may initiate criminal and/or civil proceedings as may be deemed necessary to correct project deficiencies, protect natural resource values, and secure compliance with statutes.
- O. If any change or deviation from the permitted activity becomes necessary, the permittee shall request, in writing, a revision of the permitted activity from EGLE. Such revision request shall include complete documentation supporting the modification and revised plans detailing the proposed modification. Proposed modifications must be approved, in writing, by EGLE prior to being implemented.
- P. This permit may be transferred to another person upon written approval of EGLE. The permittee must submit a written request to EGLE to transfer the permit to the new owner. The new owner must also submit a written request to EGLE to accept transfer. The new owner must agree, in writing, to accept all conditions of the permit. A single letter signed by both parties that includes all the above information may be provided to EGLE. EGLE will review the request and, if approved, will provide written notification to the new owner.
- Q. Prior to initiating permitted construction, the permittee is required to provide a copy of the permit to the contractor(s) for review. The property owner, contractor(s), and any agent involved in exercising the permit

are held responsible to ensure that the project is constructed in accordance with all drawings and specifications. The contractor is required to provide a copy of the permit to all subcontractors doing work authorized by the permit.

- R. Construction must be undertaken and completed during the dry period of the wetland. If the area does not dry out, construction shall be done on equipment mats to prevent compaction of the soil.
- S. Authority granted by this permit does not waive permit requirements under Part 91, Soil Erosion and Sedimentation Control, of the NREPA, or the need to acquire applicable permits from the County Enforcing Agent (CEA).
- T. Authority granted by this permit does not waive permit requirements under the authority of Part 305, Natural Rivers, of the NREPA. A Natural Rivers Zoning Permit may be required for construction, land alteration, streambank stabilization, or vegetation removal along or near a natural river.
- U. The permittee is cautioned that grade changes resulting in increased runoff onto adjacent property is subject to civil damage litigation.
- V. Unless specifically stated in this permit, construction pads, haul roads, temporary structures, or other structural appurtenances to be placed in a wetland or on bottomland of the water body are not authorized and shall not be constructed unless authorized by a separate permit or permit revision granted in accordance with the applicable law.
- W. For projects with potential impacts to fish spawning or migration, no work shall occur within fish spawning or migration timelines (i.e., windows) unless otherwise approved in writing by the Michigan Department of Natural Resources, Fisheries Division.
- X. Work to be done under authority of this permit is further subject to the following special instructions and specifications:
 - 1. Authority granted by this permit does not waive permit or program requirements under Part 91 of the NREPA or the need to acquire applicable permits from the CEA. To locate the Soil Erosion Program Administrator for your county, visit <https://www.michigan.gov/egle/about/organization/water-resources/soil-erosion/sesc-overview> and select "Soil Erosion and Sedimentation Control Agencies".
 - 2. The authority to conduct the activity as authorized by this permit is granted solely under the provisions of the governing act as identified above. This permit does not convey, provide, or otherwise imply approval of any other governing act, ordinance, or regulation, nor does it waive the permittee's obligation to acquire any local, county, state, or federal approval or authorization necessary to conduct the activity.
 - 3. No fill, excess soil, or other material shall be placed in any wetland, floodplain, or surface water area not specifically authorized by this permit, its plans, and specifications.
 - 4. This permit does not authorize or sanction work that has been completed in violation of applicable federal, state, or local statutes.
 - 5. This permit authorizes construction of dock(s) or pier(s) for private, non-commercial use for individuals residing at 6859 Main St.
 - 6. Dock(s) or pier(s) shall be of open construction without fill, maintaining free water movement and circulation.
 - 7. The dock must be located such that boat dockage shall not interfere with riparian rights.
 - 8. Additional attachments to permitted structures, including but not limited to roofs, sidewalls, handrails, benches, decks, docks, piers, or extensions thereof, are **not** authorized by this permit.
 - 9. Dredging is not authorized by this permit. Filling is not authorized by this permit.
 - 10. No work or dredging within the water authorized by this permit is allowed from October 15 to December 1 due to critical spawning, migration, and/or recreational use periods.**
 - 11. No work is authorized from October 15 to December 1 to protect spa
 - 12. The permit placard shall be kept posted at the work site in a prominent location at all times for the duration of the project or until permit expiration.

13. This permit is being issued for the maximum time allowed and no extensions of this permit will be granted. Initiation of the construction work authorized by this permit indicates the permittee's acceptance of this condition. The permit, when signed by EGLE, will be for a five-year period beginning on the date of issuance. If the project is not completed by the expiration date, a new permit must be sought.

MACKINAC ISLAND

TOPOGRAPHIC SURVEY

PART OF LOT 71
ASSESSOR'S PLAT NO. 2

MACKINAC ISLAND, MACKINAC COUNTY, MICHIGAN

ZONING REQUIREMENTS VERIFY WITH MACKINAC ISLAND

ZONING DISTRICT - A-1
MINIMUM LOT WIDTH - 100.00 FT
MINIMUM LOT DEPTH - 100.00 FT
SETBACKS
FRONT - SEE UP IN LIST WITH ADJACENT HOMES
REAR - 10'
EAST SIDE - 10'
WEST SIDE - 0'

- LEGEND:**
- FOUND SURVEY IRON
 - FOUND CHISELED "X"
 - SET 800' W/41.0' PROPERTY LINE
 - METWALL
 - CLOS STIP
 - (M) MEASURED BEARING AND DISTANCE
 - (C) COMPUTED BEARING AND DISTANCE
 - (A) RECORD BEARING AND DISTANCE
 - PROPERTY LINE
 - INTERMEDIATE TRAVERSE LINE
 - SETBACK LINE
 - FEMA FLOOD PLAIN LINE
 - PROPOSED NEW HOME
 - PROPOSED CASE # 176

NOTES:

The property description was furnished, and no check of title relative to ownership, gaps, overlaps or occupation has been performed as part of this sketch.

Bearings and distances shown on this map were taken from a survey by James H. Granger RL5 #16041, for Henry Murray, dated 5 May 1891, and recorded in Chisago County Records in Liber 257, Page 636.

The FEMA Flood Plain Line as shown as 583.6 is currently in effect. On December 5, 2022, FEMA's new maps will become active and show the new Flood Plain at 585.0.

This is a professional opinion concerning the location of the property boundaries depicted hereon, based upon the appropriate boundary law principles governed by the facts and evidence gathered and evaluated during the course of this survey. Monuments, that in the opinion of this surveyor represent the true and correct corners of the property being surveyed, have been found or set as indicated hereon. As a professional opinion, this survey carries with it no guarantees or warranties, expressed or implied.

The area lying between the Ordinary High Water Line and the Edge of water is subjected to rights by others. The ordinary high water line was not mapped for purposes of this survey.

This survey is not intended to be used in place of an ALTA/NSPS Land Title Survey, or to be used to remove the survey exceptions of a title insurance policy.

SOUNDING SURVEY PLANS
SHOWING THE SHORELINE AND
SOUNDING SURVEY PLANS

NOTES:

The property description was furnished, and no check of this relative to records, maps, surveys or alterations has been performed on part of this sketch.

Boundaries and distances shown on this map were taken from a survey by James H. Bennett, E.L.S., dated 1910, for Harry Murray, dated 21 May 1910, and recorded in Chatham County Records in Liber 557, Page 156.

The FEMA Flood Plain Line as shown at 2024 is accurate as of 12/15/2024. On December 15, 2024, FEMA's wet days will become active and show the new Flood Plain at 2024.

This is a professional opinion concerning the location of the property boundaries reported herein, based upon the appropriate boundary line projection, generated by the field and outdoor methods and recorded during the survey of this survey. However, that if the opinion of this survey represents the true and correct centers of the property being surveyed, have been found or not as indicated herein. As a professional opinion, this survey carries with it no guarantee or warranty, expressed or implied.

The area lying between the Oakley High Water Line and the Edge of water is subject to rights by others. The arbitrary high water line was not surveyed for purposes of this survey.

This survey is not intended to be used in place of an ALTA/NSPS Land Title Survey, or to be used to resolve the survey exceptions of a title insurance policy.

Form Input

Instructions

[To download a copy or print these instructions, please click this link \(recommended\).](#)

The EGLE/USACE "Joint Permit Application" (JPA)

READ THOROUGHLY BEFORE STARTING THE FORM

It is recommended to download a pdf of this page at www.michigan.gov/jointpermit for reference while filling out the form. Please also refer to this website for additional information regarding this form, including a glossary and other helpful resources on information required to be submitted in this form.

This is the Joint Permit Application (JPA) for construction activities where the land meets the water. This application covers permit requirements derived from state and federal rules and regulations for activities involving:

Wetlands
Floodplains
Marinas
Dams
Inland Lakes and Streams
Great Lakes Bottomlands
Critical Dunes
High Risk Erosion Areas

This application prevents duplication of state and federal forms for these activities and provides concurrent review under all pertinent state and federal laws. In the case of U.S. Army Corps of Engineers (USACE) jurisdiction, the Michigan Department of Environment, Great Lakes, and Energy will also send a copy of this Joint Permit Application to the USACE for simultaneous processing. The Michigan Department of Environment, Great Lakes, and Energy will provide coordination between state and federal agencies during the application review.

This application form is set up with the following sections to be completed by the applicant (note that it is recommended to gather all this information prior to starting this form):

Contact Information:

Applicant, Property Owner(s), Consultant(s), and any other Authorized Representative(s)

Authorizations are required from the property owner for:

- when the applicant is not the owner,
- when there is a consultant/representative for the applicant,
- when spoils disposal locations are not on site,

- when other permissions are necessary based on project specifics and are identified by the form.

Project Location Information:

Address, coordinates, and directions to the site, etc.

Background Information:

Existing site conditions, other related permits, existing easements/encumbrances, other related application numbers (pre-application meetings, Wetland Identification Program, etc.)

Permit Application Category and Public Notice Information:

This section asks what permit application category you believe fits your project. While this is not required to submit the application, knowing this will also help you submit the right permit application fee and avoid a correction request and processing delays.

The choices of permit application categories to select in the form are:

General Permit, \$50 fee (<https://www.michigan.gov/egle/-/media/ProjectWebsites/egle/Documents/Programs/WRD/Wetlands/General-Permit-Categories.pdf?rev=e7fc28cb17e14c7b821b7595f6aa585d&hash=490A504F4063BC141104F8DDDCAF70AE>)

Minor Project, \$100 fee (<https://www.michigan.gov/egle/-/media/ProjectWebsites/egle/Documents/Programs/WRD/Wetlands/Minor-Project-Categories.pdf?rev=c0e17657e1484b20afe47010a67a6999&hash=3C83AAE98832042FA83E28328C7C9842>)

Public Notice Individual Permit, range from \$500-\$4,000 depending on type of activity. For High Risk Erosion Areas and Critical Dune Areas fees for Public Notice individual permit applications can range from \$50-\$4000. Additional fees may be applied for some special project requirements such as hydraulic analysis, dam projects, and a special exception application in a critical dune area. See Fee Schedule on website for more information.

Unsure, select this and the permit reviewer will make the determination on permit type after the application is submitted based on the project details. However, some fee is required to be submitted with the application. If an additional fee is required, the Michigan Department of Environment, Great Lakes, and Energy will send a correction request that will show the remaining amount required. The application will not be considered complete without the proper fee.

Adjacent Landowner contact information for Public Notice projects is required by law. This includes any parcels touching the project parcel and parcels across the street.

Project Description:

Information on the Proposed Use and Purpose of the project (who and what the project is intended for and why is it needed). This includes a written summary of the project as well as a list of project uses and types to select from as follows:

Project Use Selections:

- Private
- Commercial
- Public/Gov/Tribal
- Federal/State funded
- Non-Profit
- Other

Project Type Selections:

- Agriculture
- Airport
- Development- Condo/ Subdivision/Residential
- Development-Commercial/ Industrial
- Drain-County
- Drain-Private
- Drawdown
- Lake, Drawdown
- Wetland Forestry
- Landfill
- Marina/Mooring Facility
- Marine Railway
- Mining-Mineral,
- Mining-Sand and Gravel
- Private Residence
- Restoration-Wetland
- Restoration-Stream
- Transportation
- Septic System Surveying or Scientific Measuring Device
- Utility-Electrical, Fiber optic
- Utility-Oil and gas pipelines
- Utility-Sewer/water line

Other

Construction Details including sequencing, timeframes, SESC measures, etc.

Alternatives Analysis detailing all options considered and why this is the least impactful feasible and prudent proposal. The depth of this analysis is typically commensurate with the size and purpose of the project and at minimum should include variables such as alternate locations (including other properties), configurations and sizes (layout and design), and methods (construction technologies), and other constraints (local regulations, resource issues). Discussion should also include why the do nothing alternative is not feasible or prudent.

Project Compensation:

Narrative of how proposed impacts will be compensated (mitigated or other minimization measures), including amount, location, and method; or why mitigation should not be required. This can be traditional mitigation and/or other techniques used to minimize overall loss of functions.

Resource and Activity Type. This section is intended to determine what additional sections of the application are generated (as seen on the left side of the screen) for further information gathering. This includes questions regarding what Resource feature is involved (e.g., wetland, stream, floodplain, pond, dam, critical dune, etc.) and if there are identified Special Activities (i.e., activities requiring a specific series of questions to be answered). Be sure to choose all that apply to your project. If your activity is not listed, choose None of the Above and move on to the next question. More specific activity questions will appear later based on the resource section answers.

Resource Information and Impacts Sections (Multiple Sections). These are a series of sections that will appear on the left side of the screen based on your answers to the Resource and Activity Types section. You will input further information on the existing resources to be impacted (e.g., wetland type, permanent or temporary impact, water elevation data, drainage area, etc.) and all proposed Project Activities with their Dimensions (e.g., length, width, depth, square footage). For example, when Wetland is selected as a resource that your project will involve, a Wetland Project Information and Impacts section will appear on the left side of the screen that includes questions specific to gathering information about the wetland.

For projects including Floodplains, Marinas, Dams, Critical Dunes, or High Risk Erosion Areas individual sections will appear on the left side of the screen that include different sets of specialized questions as required by those programs. These sections do not share a specific format. Help tips will guide you in filling out these sections.

For projects including wetlands, ponds, inland lakes, streams, or the Great Lakes resources, individual sections will appear on the left side of the screen that are similar in format to each other. Each of these resource sections asks initial general information and then has additional questions regarding the Types of Activities proposed for each resource. The outline for these resource activity impacts questions is Activity Type, Dimensions Table, and Special Questions.

There are four overall Types of Activities groups for wetlands, ponds, inland lakes, streams or the Great Lakes:

Fill Activities

Dredge Activities

Structure Activities

Other Activities

Under each of these Types of Activity questions, specific activity lists will be shown that are typical for that type (fill, dredge, structure, other) and resource (wetland, lake, stream, etc). Follow these steps to accurately fill out the Activity Type Questions:

1. Start with the Fill question and choose any activities on the list that is included in your project. If your activity is not shown, then select None of the Above and move to the next question.

2. When you select an activity listed under Fill, Dredge, Structure, or Other, a dimensions table will appear under that question. This table is where you enter EACH activity OF THE TYPE YOU SELECTED and associated dimensions. Be sure that all the activities you selected are also listed in the table with the dimensions. Multiple activities covering the same footprint may be combined on one line in the table (for example, riprap on slopes of driveway fill can be entered on the same impact dimensions line and does not necessarily need to be broken out).

3. Continue to answer the Activity Type questions (Fill, Dredge, Structure, Other) until all have been answered with either a specific Activity listed under that Type or None of the Above. If you did not find your activity in any list then select Other and provide a description of your activity in the space that appears. Please be as descriptive as possible.

Proposed mitigation questions may appear within specific resource types sections based on your answers. Enter any proposed mitigation in the appropriate section (wetland, stream, etc.) and if no mitigation is proposed you must provide commentary with an explanation as to why it is not required. Mitigation plans according to the mitigation checklist ([link](#)) are required for a complete application. When mitigation is proposed be sure to also select mitigation in the Permit Application Type section under the second question.

In the above sections, uploads will be prompted as required by the answers to questions. These should be uploaded in these location (ex, mitigation plans should be uploaded in the mitigation section). Please do not wait to upload one large document

with all plans combined at the end. Note that each individual upload is limited to 10M.

Upload of Proposed Site Plans.

Any plans or explanatory narratives not requested in previous sections should be uploaded in this section. Construction Plans including overhead view, cross sections, and profiles showing each impact either to-scale or with dimensions are required and typically would be uploaded here. Plan labels should correspond with labels entered in the form for each activity selected. The application will not be complete without the proper site plans. If drawings are not received with all required dimensions and resources identified, then the Michigan Department of Environment, Great Lakes, and Energy will send a correction request and your application processing will be delayed. However, please limit drawings, plans, and narratives submitted to the items necessary for permit review. For example, entire bid package documents and CAD drawings are often not helpful for permit review and may cause delays from wading through extraneous information. Plans, profiles and cross sections specific to the resource impacts are the most helpful.

Review:

This section allows you to see the entire form with the answers you entered. Please review for accuracy prior to hitting the submit button. A print option is provided on this screen (print to PDF is recommended). Once the application is submitted you may not make changes to it until the application has been assigned to a staff person.

Certify & Submit:

This is the final section of the application form. The **Submit Form** button selection certifies that all information in the application is true and accurate and that you have the authority to apply for the permit as indicated. This application will become part of public record.

We recommend that you have the above information ready prior to starting this application. You will be able to save in-progress applications and come back later, but all required uploads and questions are necessary before the system will allow submittal of the application. Some sections of this application form load faster than others depending on the complexity of the questions.

Thanks for your patience while you work through the application. For assistance with this form visit:

<https://www.michigan.gov/jointpermit>

No

Is there a conservation easement or other easement, deed restriction, lease, or other encumbrance upon the property?

No

Are there any other federal, interstate, state, or local agency authorizations associated with this project?

No

Permit Application Category and Public Notice Information

Project Category Selection:

The Permit Application Category you apply under is dependent on the type and scope of activities you are undertaking and the resources affected. There is a three-tier permitting process to aid in expediting permits for regulated activities that occur on wetlands, inland lakes and streams, and the Great Lakes (Parts 301, 303, and 325): General Permit, Minor Project, and Individual Permit.

Additionally, Minor Project categories exist for floodplains under the authority of Part 31.

General Permit and Minor Project categories generally meet specific Best Management Practices criteria that have been shown to minimize impacts to resources if followed correctly. If you select a General Permit or Minor Project Category you must select the specific category(ies) that your project fits under. Any project that does not fit a General or Minor Category are Individual Permit projects. All projects in Critical Dunes, High Risk Erosion Areas, or Dam Safety projects will be Individual Permit Projects.

Indicate the type of permit being applied for.

Individual Permit for all other projects

This type of permit application requires that you include contact information for the adjacent landowners to this project. If you are only entering in a small number of bordering parcel owners contact information, please select "Enter list of recipients". If there is a rather large number of affected property owners such as a project that significantly affects lake levels, please upload a spreadsheet of the property owners. Please include names and mailing addresses.

Enter list of recipients.

This project may require public noticing. Please list the adjacent landowners to the project, along with any of the others that may apply:

Contact Type	Contact Person	Mailing Address	City	State	Zip Code
Adjacent Landowner	ROBERT BENSER	BOX 475	GAYLORD	MI	49734-0475
Adjacent Landowner	BRIAN MURRAY	6350 HEATHFIELD DR	EAST LANSING	MI	48823

Project Description

Project Use: (select all that apply - Private, Commercial, Public/Government/Tribal, Receiving Federal/State Transportation Funds, Non-profit, or Other)

Private

Project Type (select all that apply):

Private Residence

Please enter your answers in the text box for the next four questions. If you have a long description, please use the document upload at the end of the section. Please make every effort to enter your information directly into the application text boxes. If the answer is in an attachment, please identify that in the text box below.

Project Summary (Purpose and Use): Provide a summary of all proposed activities including the intended use and reason for the proposed project.

INSTALL ONE PRIVATE RESIDENTIAL OPEN PILE DOCK AS SHOWN IN DETAIL PLAN ATTACHED TO THIS FORM.

USE: PRIVATE RESIDENTIAL DOCKAGE

PLEASE NOTE: THE (L) HAS BEEN ELIMINATED.

THE DOCK IS HELD TO ONE SIDE OF THE PROPERTY, 10' OFF THE PROPERTY LINE, TO ALLOW ADEQUATE MANEUVERING SPACE ON THE WESTERLY SIDE OF THE DOCK AND PROPERTY.

DRAFT OF SAILBOAT, 4.5'

CORRECTION REQUEST (APPROVED)

Purpose

What is the purpose of the "L" at the end of the dock? What depths are required for the applicants boat draft? Why was the center of the property not chosen as the location for the dock?

Created on 10/25/2023 1:49 PM by **Cassie Abrams**

Project Construction Sequence, Methods, and Equipment: Describe how the proposed project timing, methods, and equipment will minimize disturbance from the project construction, including but not limited to soil erosion and sedimentation control measures.

DRIVE WOOD PILINGS AT APPROXIMATELY 10' INTERVALS, INSTALL CROSSERS, ADD STRINGERS AND DECK OVER.

WOOD CONSTRUCTION.

CORRECTION REQUEST (APPROVED)

Materials

Will the entire dock be constructed of wood? Including crossers and stringers?

Created on 10/25/2023 1:55 PM by **Cassie Abrams**

1 COMMENT

ROBERT ROBLEY (robertcrobley@gmail.com) (11/21/2023 4:36 PM)

YES

Project Alternatives: Describe all options considered as alternatives to the proposed project, and describe how impacts to state and federal regulated waters will be avoided and minimized. This may include other locations, materials, etc.

NONE CONSIDERED AT THIS TIME. ACCORDING TO EGLE THIS IS THE LEAST IMPACTFUL DOCK AVAILABLE.

SEASONAL DOCKS DO NOT HOLD A HEAVY DISPLACEMENT BOAT IN MAC ISLAND HARBOR.

PLEASE NOTE: THE DOCK IS NOW STRAIGHT WITH NO (L). SEE ATTACHED REVISED DRAWING.

DOCK OFF SET TO PROVIDE ADEQUATE MANEUVERING SPACE IN FRONT OF OWNER APPLICANTS HOME.

ISLAND LIFE REQUIRES A WIDE DOCK TO HAUL PROVISIONS DOWN THE DOCK ON CARTS.

CORRECTION REQUEST (APPROVED)

Specific Alternatives Considered

Was a seasonal dock considered? Why or why not? Was a single linear pier considered with no "L" at the end? Why or why not? Was placing the dock in the middle of the property considered? Why or why not? What widths were considered for the dock and why was 8' decided? Was dredging considered to reduce dock length? Why or why not?

Created on 10/25/2023 1:52 PM by **Cassie Abrams**

Project Compensation: Describe how the proposed impacts to state and federal regulated waters will be compensated, OR explain why compensatory mitigation should not be required for the proposed impacts. Include amount, location, and method of compensation (i.e., bank, on-site, preservation, etc.)

NONE

Upload any additional information as needed to provide information applicable to your project regarding project purpose sequence, methods, alternatives, or compensation.

NONE PROVIDED

Resource and Activity Type

Important! Answer all questions completely. Properly identifying your project in this section generates the proper application sections. Incomplete applications will require corrections before they can be fully processed.

SELECT THE ACTIVITIES from the list below that are proposed in your project (check ALL that apply). If you don't see your project type listed, select "Other Project Type". These activities listed require additional information to be gathered later in the application.

Dock/Pier/Mooring

The Proposed Project will involve the following resources (check ALL that apply).

Great Lake

Major Project Fee Calculation Questions

Is filling of 10,000 cubic yards or more proposed (cumulatively) within wetlands, streams, lakes, or Great Lakes?

No

Is dredging of 10,000 cubic yards (cumulatively) or more proposed within streams, lakes, or Great Lakes? (wetlands not included)

No

Is new dredging or adjacent upland excavation in suspected contamination areas proposed by this application?

No

Is a subdivision, condominium, or new golf course proposed?

No

Great Lake Project Information (1 of 1)

Please Read

This section is for entering information regarding the impacts to a Great Lake only. Do not input information that pertains to other resources (inland lakes, streams, floodplains, etc.).

Projects located on the Great Lakes, including Lake St. Clair, may be required to secure leases or conveyances from the state of Michigan to place structures on the bottomlands. If a conveyance is necessary, an application must be submitted before the Joint Permit Application can be determined complete. For more information on Great Lakes bottomlands conveyances visit <https://www.michigan.gov/egle/about/Organization/Water-Resources/shipwrecks/great-lakes-bottomland-conveyances>

[Link to Great Lakes Bottomland Conveyances Information](#)

Enter the recent observed Great Lake water elevation at the project location. This information can be found on the USACE website link below or a relative elevation can be converted from a reference point or benchmark.

[Click here for link](#)

Great Lake Water elevation reference* (show elevation on plans with description):

converted from still water elevation

Great Lakes observed water elevation (feet)

577.5

Great Lake Average water depth at activity location in a normal year: (feet)

Comment
NONE PROVIDED

Describe any measures used to retain sediment:
OPEN PILE DOCK. SEDIMENT RETAINMENT NOT REQUIRED.

Will a turbidity curtain be used during the proposed project?
No

If there are multiple Great Lakes associated with the project impacts, or different Ordinary High Water Mark (OHWM) elevation data, provide the information in duplicate Great Lakes project information tabs by clicking on DUPLICATE or ADD NEW below. This adds a new section where you will enter the information about additional project impacts.

Inland Lakes, Great Lakes and Stream Impacts (1 of 1)

PLEASE READ

This section will collect information regarding Inland Lakes, Great Lakes, and Streams impacts and activities only. The initial questions are related to which waterbody the impacts pertain to. When there are multiple waterbodies (e.g., some impacts are on an inland lake and some impacts are on a stream), fill out a DUPLICATE tab for each waterbody impacted. For each waterbody, questions will be asked regarding the proposed activities. Proposed Activities questions are grouped into Fill, Dredge, Structures, Other and are only for the impacts related to these groups. Click the link below for more information on the Inland Lakes and Streams Protection Program.

[Link to Information on Inland Lakes and Streams Permitting](#)

The following impact description applies to: (select only one at a time, duplicate this entire section if there are impacts to multiple waterbody types):
Great Lake

Acres of Inland lake/Great Lake affected by your project below the Ordinary High Water Mark:

Category	Acres
Permanent	0
Temporary	0
	Sum: 0

The following questions gather information on the specific Types of Activities your project includes that will impact INLAND LAKES, STREAMS, AND GREAT LAKES. There are four overall Types of Activities: Fill, Dredge, Structure, and Other. Under each of the Activity Type questions, specific activity lists will be shown. If the activity is not shown in the list given, select None of the Above and move to the next question. When you select an activity under Fill, Dredge, Structure, or Other, a table will appear under that type. Only enter the dimensions of the activity that are within INLAND LAKES, STREAMS, or GREAT LAKES. Multiple activities covering the same footprint may be combined on one line in the table. Continue to answer the Activity Type questions (Fill, Dredge, Structure, Other) until all have been answered with either a specific Activity listed under that Type or None of the Above. If you did not find your activity in any list then select Other, Other and provide a description of your activity.

Select from the following list all Fill Activities (select all that apply to this waterbody impacted):
No fill

Activities Involving Dredging or Excavation: Select from the following list for Excavation/Dredge Activities (select all that apply to this waterbody impacted):
No Dredging/Excavation Proposed

If your project includes STRUCTURES then select all of the proposed activities in the following list. If your activity is not shown, then select None of the Above and move to the next question. Only enter an impacted area in one of the impact tables (do not duplicate impact entries):

Dock (except Crib Dock)

Projects involving Structures constructed below the Ordinary High Water Mark:

Activity	Length (feet)	Width (feet)	Depth (feet)	Area (square feet)	Volume (cubic feet)	Volume (cubic yards)	Corrected value for complex impact AREAS (square feet)
OPEN PILE DOCK	128	8	1	1024	1024	38	NONE PROVIDED
				Sum: 1024	Sum: 1024	Sum: 38	Sum: NaN

If your project includes Other Activities not listed in this section, then select from the proposed activities in the following list. If your activity has not been listed in this Section, then select Other and enter a description of your activity. Only enter an impacted area in one of the impact tables (do not duplicate impact entries). If you selected a Fill, Excavation/Dredging, or Structure activity above in this section, but do not have an activity listed as Other, then select None of the Above for this question.

None of the above

Does the proposed project include mitigation?

none

If there are multiple waterbodies associated with the project impacts, or different Ordinary High Water Mark (OHWM) elevation data on the waterbody, provide the information in duplicate stream project information tabs by clicking on DUPLICATE or ADD NEW below. This adds a new section where you will enter the information about additional project impacts.

Dock/Pier/Mooring Project

Are new commercial docks or wharves of 300 feet or more (cumulatively) in length proposed?

No

Please provide the dimensions of similar adjacent structures.

Structure	Length (feet)	Width (feet)
OPEN PILE DOCK	100	8

Distance from the proposed project to the adjacent property lines.

Left (feet)	Right (feet)
10	32

Is the structure within the applicant's riparian interest area?

Yes

CORRECTION REQUEST (APPROVED)
Riparian Area

No letter from the brother was attached to this application. Dockage should be located in the center of the property and within the property owners riparian area unless there is a specific reason. If the neighboring property ever changes hands, the new owners may be opposed to the dock alignment. Please revise plans or provide specific reasoning as to why this dock construction cannot be contained within the owners riparian area.

Upload of Proposed Site Plans

REQUIRED Application, maps, and drawings:

*Overall Project Site Plan

*Cross-Sectional Drawings

For Part 315 Dam Safety applications attach detailed signed and sealed engineering plans for a Part 315 dam repair, dam alteration, dam abandonment, or dam removal.

[Examples site plan and cross-sectional drawings](#)

[For additional information on maps, drawings, and other attachments visit michigan.gov/jointpermit](#)

Required on all Site Plan uploads. Please identify that all of the following items are included on your plans that you upload with this application.

Site Plan Features	Existing and Proposed Plan Set
Scale, Compass North, and Property Lines	Yes
Fill and Excavation areas with associated amounts in cubic yards	Yes
Any rivers, lakes, or ponds and associated Ordinary High Water Mark (OHWM)	Yes
Exterior dimensions of Structures, Fill and Excavation areas associated with the proposed project	Yes
Dimensions to other Structures and Lot Lines associated with the project	Yes
Topographic Contour Lines from licensed surveyor or engineer when applicable	N/A
