FEE NOTICE

Greetings from the Department of Public Works,

As part of our efforts to maintain the high level of service the residents and visitors of Mackinac Island have come to expect, the City of Mackinac Island Board of Public Works has instituted an impact fee for new and enlarged water and sewer services. This fee replaces the previous Residential Equivalent Unit (REU) fee system.

Before your project's water service can be activated, this impact fee will need to be paid to the Department of Public Works. The price of this fee is based on the size of the water meter you will be using. An additional fee, also based on the water meter size, will be charged if you are on sewer service.

It is important to note, this is a one-time fee, and is not reoccurring. The fee is based on water meter size, not service line size. Irrigation meters will be charged only the water impact fee.

Your total impact fee will be water impact fee + sewer impact fee (if applicable.) When you are ready to activate your project's water service, please pay the appropriate fee to the DPW and set up a billing account.

Current impact fees can be found on the DPW page of the City of Mackinac Island website at the address below.

<https://www.cityofmi.org/department-public-works/page/water-sewer-impact-fees>

Fees will increase by the CPI annually.

Should you have questions, please contact me at:
