- Letter from Shepler's Ferry regarding the clarification on luggage cart charges
 - Councilman Moskwa noted that the \$40.00 fee was only applied if someone asks for a private cart.
 - Councilwoman Myers noted that if someone has a cart and fills it up completely, they will not get charged the \$40.00 fee.Motion made by Moskwa, Seconded by Bailey, to place Mr. Shepler's letter on file.
Voting Yea: Bailey, Chambers, Corrigan, Moskwa, Myers, Sehoyan
- Letter from Dr. Jennifer Pool regarding Star Line resident & employee passes
 - Mayor Doud noted that Bill & Mary Jo Border were unable to obtain their boat passes as they have Indiana driver's licenses, which Star Line would not accept.
 - o Mayor Doud spoke to Jerry Fetty, who resolved the issue
 - o As to the Pool situation - they have dual citizenship in Canada and therefore have Canadian driver's licenses. Situation should be resolved.
 - Councilman Corrigan commented that the issue is that Star Line continues to think that they can specifically require a driver's license, when the Winter Service Contract states that a driver's license is simply one form of acceptable identification
 - Councilman Bailey noted that Jerry Fetty attended a meeting in person and acknowledged that only one form of identification was required.
 - Councilwoman Myers inquired why it is still necessary to submit an "essential worker" list to Star Line? Dr. Hessler was listed on the essential worker list, submitted by the Mayor's Assistant, and he was still denied a pass.

- Attorney Evashevski stated that the way the winter service contract is written and how Star Line determines an island resident allows for proof beyond the optional documents listed in the contract. If a purchaser can prove that they are a year-round resident, there is no need to have the essential worker classification
- Councilwoman Myers noted that at the time of the original need for the "essential worker pass" the City did not have a contract with Star Line. However, there is a contract in place now with language that covers this issue, and therefore these people should be able to obtain a pass without issue.
- McCartney Years business license application
 - Councilwoman Myers did not see any reason why they could not obtain a license if they want to.
 - Not required, but they can apply for one if they want. Can get them into the CVB.

Motion by Myers, second to the motion by Corrigan, to issue a NEW business license for The McCartney Years. All in favor. Motion carried.

Motion by Moskwa, second to the motion by Corrigan, to place Dr. Jennifer Pool's letter on file. All in favor. Motion carried.

X. Old Business

- Councilman Bailey inquired if Star Line had gotten back to the City regarding the issuance of free passes for children under (5)?
 - Nothing has been received at this time
 - It was suggested that the Mayor's Assistant reach out to Mr. Fetty regarding this
- a. Transfer of 35 rental bike licenses to the new owners of the Harbour View Inn
 - City Clerk researched the origin of Harbour View bike licenses and did not find any restrictions placed
 - Based off research, believes the restrictions have only been applied to newly issued bike license (like those to James Fisher & Jason St. Onge) and not to existing licenses that are being transferred between new and old owners of a property

Motion made by Myers, Seconded by Sehoyan, to authorize the transfer of the existing 35 bike licenses from Harbour View Inn, LLC, to the new owners Harbour View Mackinac, LLC. Rental bicycle licenses will remain in use at the location of 6860 Main Street.
Voting Yea: Bailey, Chambers, Corrigan, Moskwa, Myers, Sehoyan
- b. Discussion and / or action regarding the vehicle and trailer permit for Cupps Masonry to haul a foundation system and materials to the Hoban Hill project
 - Brad Chambers of Mackinac Island Carriage Tours / Service Company stated to the Clerk that they were capable of hauling the materials
 - Nate Morrow of Preston Feather noted that they would be having Mackinac Island Service Company and Arnold Freight sign letters of liability before they take possession of the product.
 - Arnold Freight would like to keep the product on the truck and trailer, ship it over on the boat, and unload the product on the Coal Dock to the dray.
 - Product is not readily available to re-order.
 - (3) to (4) week lead time for replacement, so if needed it will delay the project significantly
 - Dennis Dombroski noted that the Medical Center was built with this same product when Jim Bond started it with the first phase. When Maverick Construction continued, they used the same product and didn't have any issues.
 - Councilman Bailey noted that bringing the truck and trailer over to dock would help with less handling.
 - Mr. Morrow, his driver, plus John Cupps & his masonry crew would be needed to unload the product on site if they were allowed to bring the truck and trailer. Should be able to unload and be back to the boat within an hour.
 - Councilwoman Myers noted that she would have concerns with on and off loading on dock with forklift as well - fragile materials
 - Councilman Moskwa suggested making a frame that would help lessen the damage during shipping.
 - Councilman Sehoyan acknowledged that this is a fragile product and needs to be handled according.
 - Attorney Evashevski inquired if there was a letter on file from the Service Company stating they can haul the product?
 - City Clerk noted that she was waiting to receive the letter from Mr. Morrow

- Councilwoman Myers suggested making an exception this time, but noted that Preston Feather needs to find a different way to ship this product in the future to avoid needing a truck and trailer.
 - Mr. Morrow confirmed that, going forward, they will find a different way to haul the product to avoid these complications
- Trailer is 52 ft long – Council expressed concerns about this making it around Chamber’s Corner
- Councilman Bailey inquired about hauling the product from the State Dock?
 - Councilwoman Myers felt that State Road would destroy the product due to its current state

Motion made by Corrigan, Seconded by Moskwa, to deny the truck and trailer permit due to the length.

- Retention wall is up and in the process of pouring the cap on top (will be in multiple stages)
 - Once the wall is completed they will have to haul in fill which will need to be compacted
 - Frost laws are still on, and until those come off paving cannot be completed
 - Bacco will be doing the paving - may be the first week of May before that can be done due to frost laws
 - Site clean-up has started and once this is done the rest of the equipment will need to be moved off island
 - Councilwoman Myers inquired if Mr. Bradley felt that most of the work, besides paving would be done by May 1st?
 - Mr. Bradley stated that he was hoping so, but there is still cement work to be done and the timeframe for that will all depend on the weather
 - All of that work is on site and materials will be hauled by the dray.
