WHEREAS, The Madera County Transportation Commission adopted the following definitions by Resolution No. 22-01 for its Unmet Transit Needs process:

- A. **UNMET TRANSIT NEEDS**: An unmet transit need is an expressed or identified need that is not currently being met through existing public transportation services. An unmet transit need also is a need required to comply with the Americans with Disabilities Act (ADA).
- B. **REASONABLE TO MEET**: The term “reasonable to meet” shall apply to public or specialized transportation services that meet the following minimum criteria:
1. **Feasibility**
 - The proposed service can be provided with available Transportation Development Act (TDA) funding and/or other funding sources (per State law, the lack of available resources shall not be the sole reason for finding that a transit need is not reasonable to meet per PUC § 99401.5 (c)).
 - Sufficient ridership potential exists for new, expanded, or revised transit services.
 - The proposed transit service will be safe and comply with local, state and federal law.
 2. **Community Acceptance**
 - The proposed transit service has community support from the general public, community groups, and/or community leaders.
 3. **Benefit to Population**
 - The proposed transit service serves a significant number of residents where it is needed and would benefit the general public and/or senior and disabled persons as a whole.
 4. **Cost-Effective**
 - The proposed transit service will not affect the ability of the overall system of the implementing agency or agencies to meet applicable transit system performance

objectives or the State TDA farebox ratio requirement after any exemption(s) period(s) if the service is eligible for an exemption(s) per CCR 6633.2.

- The proposed transit service, if implemented or funded, would not cause the responsible operator to incur expenditures in excess of the maximum amount of LTF, STA, FTA funds, and fare revenues and local support.

5. Consistent with Intent of Existing Transit Service(s)

- Once established, the proposed transit service will not abuse or obscure the intent of existing transit service(s).
- The proposed transit need should be in conformance with the goals included in the Regional Transportation Plan/Sustainable Communities Strategy, and consistent with the intent of the goals of the adopted Short Range Transit Plan.
