163	MCTC		Conduct culturally relevant public engagement process on unmet transit needs by directly speaking with residents	Not an Unmet Transit Need	MCTC is only required to hold one UTN Public Hearing per year. In addition to the Public Hearing, during the current cycle, there have been four workshops, one in Chowchilla, one in Oakhurst, and two in Madera, and one outreach event at the Pomegranate Festival. An additional workshop was scheduled in North Fork, but was cancelled by the community due to record-breaking snowfall. The workshop will still be held at a to-be-determined date.
164	MCTC		Incorporate an equity framework in decision-making around investments for public transit funding	Not an Unmet Transit Need	This is outside the purview of SSTAC.
Comments from Leadership Counsel for Justice and Accountability Counsel Letter Previous Years					

165	City of Madera	METRO	A. Transit users in the City of Madera report up to one hour wait times for buses on occasion, and expressed the need for routes in the City of Madera to run more frequently.	SSTAC reaffirms the previously adopted recommendation	The City of Madera aims to address many operational issues with the adoption of the Madera Transit Plan.
166	ALL	ALL	B. Residents and transit users report a need to expand rate assistance programs to provide free rides to people who are unable to pay their bus fare but who have transit needs nonetheless. This need was raised during the COVID-19 pandemic, during which many transit users have experienced additional financial hardships.	SSTAC reaffirms the previously adopted recommendation	This is subject to grant availability and project competitiveness. Sufficient need must be verified.
167	County of Madera		C. Residents and transit users report a need for street lighting in La Vina, Fairmead, and Madera County to ensure transit users' first and last miles are safely lit.	SSTAC reaffirms the previously adopted recommendation	This is a Streets & Roads need and can only be addressed with Local Transit Funds if all transit-specific needs are met.
168	City of Madera		D. Residents and transit users continue to elevate the need for wastebaskets at bus stops in the City of Madera.	SSTAC reaffirms the previously adopted recommendation	
169	County of Madera		E. Residents and transit users in unincorporated communities have identified streets that need repavement and clean mobility infrastructure like sidewalks, crosswalks, and street lighting in order to facilitate their first and last miles, and thus, their use of public transit. A few examples that were elevated in our conversations were sidewalks and street lighting along Avenue 9 and within the subdivision of homes located in La Vina, and road repavement to Rd 26 in Madera Acres, Rd 29 in Parksdale, and Valerie Avenue in Madera Acres. One of the reasons it is critical that communities have sidewalks to connect residents to bus stops is to ensure ADA accessibility for transit users who use wheelchairs.	SSTAC reaffirms the previously adopted recommendation	This is a Streets & Roads need and can only be addressed with Local Transit Funds if all transit-specific needs are met.
170	County of Madera		F. Residents from Fairmead and Madera County report the need for speed reduction infrastructure near schools for the safety of children. For instance, residents in Fairmead have been asking Madera County and MCTC for speed bumps or other similar speed reduction infrastructure in front of Fairmead Elementary school on Ave. 22 3/4.	SSTAC reaffirms the previously adopted recommendation	This is a Streets & Roads need and can only be addressed with Local Transit Funds if all transit-specific needs are met.
171		All	G. Resident and transit users report the need for electronic bus signs on buses and at bus stops. At bus stops, an electronic sign should indicate the estimated time of arrival of the bus and its destination along its current route, and electronic signs on the buses should confirm the direction in which the bus is traveling along its route with its final destination. Residents report that this will greatly improve the user-friendliness of public transit in Madera County and encourage ridership.	SSTAC reaffirms the previously adopted recommendation	Basic signage is available at this site via the Transit App and website. Additional schedule information is in the process of being posted at each stop. Electronic signage is a costly project that is being considered for a grant application in the future.
172	County of Madera	MCC	H. Residents and transit users in La Vina continue to elevate the need for more frequent routes between La Vina and the City of Madera. Currently, the bus only runs on Wednesdays and Fridays, leaving transit-dependent persons with no other means of transportation without access to basic amenities (including healthcare, food, and other emergency services) most days of the week.	SSTAC reaffirms the previously adopted recommendation	This route runs on Mondays, Wednesdays & Fridays. Monday was added last year. The County is currently evaluating the use of Microtransit service to increase options in this area.

173	County of Madera	MCC	I. Residents and transit users in Fairmead have elevated the need to continue working towards installation of a second bus stop in Fairmead. As we understand it, the status of this project is pending collaboration between the Fresno EOC and Madera County Public Works. We ask that MCTC direct these agencies to continue their work on this project as soon as possible in collaboration with Fairmead residents, and oversee progress to ensure this project stays on track and remains coordinated with the planning efforts for the Fairmead Library & Community Center.	SSTAC reaffirms the previously adopted recommendation	This stop will be constructed subject to the schedule associated with the agreement between California High Speed Rail (HSR), Madera County General Services and the Friends of Fairmead (FOF). Within that agreement Madera County General Services, in collaboration with HSR and FOF will develop a new community center sight that will include a new bus stop with a bus stop shelter.
174			J. Indigenous residents and transit users in Madera County have elevated they want more bus stops, specifically in Parksdale and Cesar Chavez Elementary school areas and more frequent bus stops.	SSTAC reaffirms the previously adopted recommendation	
175	County of Madera	MCC	K. Indigenous residents and transit users in Madera County have elevated the need for stop signs on Avenue 13 and Avenue 14 ½.	SSTAC reaffirms the previously adopted recommendation	This is a Streets & Roads need and can only be addressed with Local Transit Funds if all transit-specific needs are met.
176	County of Madera		The Chowchilla-Fairmead-Madera schedule must be extended to the weekends to afford transit users improved access to this essential route	SSTAC reaffirms the previously adopted recommendation	Insufficient ridership potential exists for this new, expanded, or revised transit service. The proposed transit service will affect the ability of the overall system of the implementing agency or agencies to meet applicable transit system performance objectives or the State TDA farebox ratio requirement after any exemption(s) period(s) if the service is eligible for an exemption(s) per CCR 6633.2.
177	County of Madera		The schedule must be updated to include more frequent routes, both Northbound to Chowchilla and Southbound to Madera;	SSTAC reaffirms the previously adopted recommendation	Insufficient ridership potential exists for the new, expanded, or revised transit service. The proposed transit service will affect the ability of the overall system of the implementing agency or agencies to meet applicable transit system performance objectives or the State TDA farebox ratio requirement after any exemption(s) period(s) if the service is eligible for an exemption(s) per CCR 6633.2.
178	County of Madera		A second stop must be added on the Northern side of Fairmead around the vicinity of Avenue 23 to ensure that this crucial transit service is accessible to residents throughout the entire community. Provided that the only existing stop in Fairmead is located at Galilee Missionary Baptist Church on Avenue 22 1/2 near Fairmead Blvd, riders who live on the other side of the community are not able to easily access the route.	SSTAC reaffirms the previously adopted recommendation	This stop will be constructed subject to the schedule associated with the agreement between California High Speed Rail (HSR), Madera County General Services and the Friends of Fairmead (FOF). Within that agreement Madera County General Services, in collaboration with HSR and FOF will develop a new community center sight that will include a new bus stop with a bus stop shelter.
179	County of Madera		Increased frequency of routes for Eastin Arcola-Ripperdan-La Vina Transit. Extend to rest of the week including weekends and	SSTAC reaffirms the previously adopted recommendation	Insufficient ridership potential exists for the new, expanded, or revised transit service. The proposed transit service will affect the ability of the overall system of the implementing agency or agencies to meet applicable transit system performance objectives or the State TDA farebox ratio requirement after any exemption(s) period(s) if the service is eligible for an exemption(s) per CCR 6633.2.
180	County of Madera		Additional routes during the day.	SSTAC reaffirms the previously adopted recommendation	Insufficient ridership potential exists for the new, expanded, or revised transit service. The proposed transit service will affect the ability of the overall system of the implementing agency or agencies to meet applicable transit system performance objectives or the State TDA farebox ratio requirement after any exemption(s) period(s) if the service is eligible for an exemption(s) per CCR 6633.2.
181	City of Madera	Metro	Improvements to the MAX and "Dial-a-Ride" Systems in the City of Madera aimed at creating more equitable and user-friendly transit services: Re-opening of the Walmart stop;	SSTAC reaffirms the previously adopted recommendation	The City of Madera has had discussions with Walmart and have had city engineers survey the land for a potential stop. A proposal was sent to Walmart on 1/21/23.
182	City of Madera		Installation of trash cans on MAX buses	SSTAC reaffirms the previously adopted recommendation	
183	City of Madera		Thirty-minute incremented bus service on all MAX routes;	SSTAC reaffirms the previously adopted recommendation	The City of Madera aims to address many operational issues with the adoption of the Madera Transit Plan.
184	City of Madera		Improvements to the "Dial-a-Ride" Dispatch system	SSTAC reaffirms the previously adopted recommendation	
185	City of Madera		Extended MAX service operation on weekends;	SSTAC reaffirms the previously adopted recommendation	
186	All	All	Equip bus stops and buses with route-related signage	SSTAC reaffirms the previously adopted recommendation	Basic signage is available at all County bus stops via the Transit App and website. Additional schedule information is in the process of being posted at each stop. Electronic signage is a costly project that is being considered for a grant application in the future.
187	All	All	Apply for grant funding to secure free rides for students	SSTAC reaffirms the previously adopted recommendation	This is subject to grant availability and project competitiveness. Sufficient need must be verified.
188	MCTC		Pursuit of regional funding for an electric rural rideshare program	SSTAC reaffirms the previously adopted recommendation	
189	All	All	Mandated discrimination prevention and accessibility training for all Madera County Transit Staff	SSTAC reaffirms the previously adopted recommendation	The requested training is already addressed through the County's Title VI Program.
