

STAFF REPORT
Board Meeting of March 17, 2021

AGENDA ITEM: 4-E
PREPARED BY: Patricia Taylor, Executive Director

SUBJECT:

California Transportation Plan 2050

Enclosure: No

Action: Information and Discussion Only

SUMMARY:

The California Transportation Plan (CTP) 2050 is the state's long-range transportation plan that establishes an aspirational vision that articulates strategic goals, policies, and recommendations to improve multimodal mobility and accessibility while reducing greenhouse gas emissions.

The purpose of the plan is to present innovative, sustainable, and integrated multimodal mobility solutions. These will help guide the planning and implementation of a low-carbon transportation system that fosters economic vitality, protects the environment and natural resources, and promotes health and well-being equitably for all Californians. The CTP 2050 update focuses on meeting current and emerging trends and challenges affecting transportation, including economic and job growth, air quality and climate impacts, new technologies, freight movement, transportation funding, and public health. The plan addresses many objectives, such as:

- Improve travel times and ease traffic congestion
- Increase safety and security on bridges, highways, and roads
- Foster healthy lifestyles through active transportation
- Expand economic opportunities through the movement of people, freight, services, and information
- Create a low-carbon transportation system that protects human and environmental health

Visit the [California Transportation Plan page](#) to view the report.

FISCAL IMPACT:

No fiscal impact to the approved 2020-21 Overall Work Program and Budget.
