RESOLUTION NO. 2023-174-R: ADOPTING THE AMENDED ANNUAL OPERATING BUDGET FOR FY 23

Council Member Shaw moved to approve Resolution No. 2023-174-R. Council Member Powell seconded. Council Member Wroblewski had several questions and concerns and stated that she has reached out to Director of Developmental Services Mary Beth Broeren regarding the mid-year budget. Council Member Wroblewski's main concern is the fee for the purchase of signs. Council Member Wroblewski advised to the Council that its more of a want than a need and there are more important projects that need more attention at this time. Council Member Wroblewski shared that infrastructure needs to be the number one need at this time. Council Member Denzine shared her concern with the Hexagon's Pickleball Courts and asked if the \$385,000 dollars was in addition to the allotted amount already going to the project. Mayor Finley replied that it's included in that total number. Council Member Denzine also added that if the lights and courts were already converted and completed why is it still a million dollars. Mayor Finley responded that it all hasn't been completed yet and is still in the process

of completion. Mayor Finley advised that lights have been purchased but installation is still being priced out and the pickleball courts haven't been converted yet. Council Member Seifert asked Mayor Finley if that price includes all obligations as well as future disbursements and Mayor Finley advised that it was the total price. Council Member Denzine asked for reaffirmation on why the additional funds are needed.

Council Member Denzine's second question related to the multipurpose venue capital maintenance fund. Council Member Denzine asked, "I looked at the numbers that we approved for the 2023 initial budget and then I looked at what was in today's (budget), and there's an additional \$3 million dollars that have been transferred in and there's no indication of where that money is coming from. It is just all of a sudden in this fund. So, if somebody could please explain to me where that \$3 million is coming from and why it's being put into the multipurpose fund at this point? I would appreciate that." Director of Finance Roger Bellomy replied, "Three million dollars is coming from Fund 71, the General Obligation Bond Debt Service Fund. It has excess funds. I transferred it into the Multiuse venue to cover major league baseball's requirements." Council Member Denzine then asked, "Is this to pay for everything we had discussed with Mary Beth previously?" Director of Finance Roger Bellomy spoke of the payments going to pay for the renovations, so MLB doesn't pull the team. Mayor Finley added, "What Roger's doing is making sure that there's money in there. What Mary Beth's doing is trying to minimize the amount of money that we spend. Major League Baseball came in last month. They did their full audit. We're still waiting. It's a point system based on where you are deficient or efficient."

Council Member Shaw clarified that all checks written still must come through the Council for approval. Mayor Finley stated that if vote is approved tonight the unassigned amount would still be 22 million dollars for about a 53% fund balance until Council approved the appropriation to spend that money.

Council Member Powell thanked the Finance Committee and Director of Finance Roger Bellomy for working so hard on the budget. He also reminded the Council that the budget has been passed and through the year the budget is an estimate and if there are excess funds, projects can be done. Council Member Powell stated that as the city grows improvements should be made in means of parks and recreation. Mayor Finley clarified to Council Member Wroblewski that the wayfinding fee for the signage is the highest number in bid and still must be viewed by the Council and at that point can be voted against. Council Member Shaw reminded Council Member Wroblewski that the wayfinding signs will help citizens and out of town visitors find their way through Madison.

Council Member Seifert stated that the wayfinding signs help him navigate when out of town. Council Member Seifert agreed the wayfinding signs are a lot of money, budgeting for them is a guess. He suggested to put in for them see what the quote is and if price isn't within budget Council could vote no. Council Member Seifert asked Director of Finance Roger Bellomy if the items to be paid for and budgeted for this fiscal year have to be received in the current fiscal year. Council Member Seifert stated that he can guarantee the price will not be the same by September. Council Member Wroblewski agreed. Council Member Spears pointed out as Director of Finance Roger Bellomy suggested a Capital Project Fund, which she agreed with because it takes all the big projects and designates funds for particular projects and the process is also easier to track. Council Member Spears also thanked Director of Finance Roger Bellomy for the funding suggestion. The vote was taken and recorded as follows:

Council Member Greg Shaw	Aye

Mayor Finley stated the goal would be to work with the landowners and purchase the property for fair market value. Mayor Finley reassured the process needed to begin in case a condemnation type process is needed. City Attorney Brian Kilgore stated that

he has reached out to voluntarily see if an agreement can be reached in probate. He clarified that the authorization is another way to get fair market value. City Attorney Brian Kilgore stated that there are three experts that determine what the value is. Council Member Spears asked if the property is condemned will the owners still get paid for the property. City Attorney Brian Kilgore reassured Council Member Spears that the process is to fairly compensate the owner for the property.

City Attorney Brian Kilgore stated that at this point an agreement hasn't been made and this is the process to resolve any sort of disagreement and that negotiations were still going on. Council Member Seifert stated that all his years on the council he can't recall a time where someone's property has been taken. He explained that their concern was that homeowners were properly compensated, and things were done on a win-win scenario.
