- SMAART-Share™ is a new way to share SMAART-PACS exams with providers, other facilities and patients.
- It is based on QR Code technology to make viewing exams a snap
- When the recipient scans the QR Code, an exam may be either viewed in SMAART's "zero footprint" image viewer or downloaded to the local computer
- SMAART's viewer is self-contained in the recipient's web-browser, so it doesn't trigger security systems to block it
- The cost of the service can be less than burning exams to DVDs.
