Hi Marie,

Andy said he talked with you this morning. I was glad to hear of your interest in rejoining OHA!

OHA restructured its dues formula for 2020, and that included lowering the dues rate for our smallest hospitals. Dues are based on operating expenses reported on the Medicare Cost Report. For expenses of less than \$10 million, annual OHA dues are 1/10<sup>th</sup> of 1% of your expenses, then the rate drops to 8/100 of 1% on the next \$10 million. Based on 2018 expenses of \$14,895,475, your 2020 OHA dues would be \$13,916.

Attached is our membership application. If you could please return it by next week, our board is meeting later in May and we'll put this on the agenda for approval. This is just a formality. Please let us know if you have any questions, and thanks for your interest!

Rick

PS – we are sending out the APSR grant checks early next week, and also returning the countersigned agreement.

## OHA Membership

Membership in the Oklahoma Hospital Association allows you to tap into an existing and growing network of health care professionals whose concerns, interests, and goals parallel yours.

## Primary Services

Probably THE most important way OHA serves its members is by representing them – as a unified voice – before members of our federal and state legislatures, governmental agencies and other groups that influence public policy. In addition to representation and advocacy, other primary membership services include:

- Educational workshops that keep members up-to-date on the latest information, issues and trends affecting our industry;
- Ongoing communications with members to keep them informed of current activities and events taking place on the state and national level that would affect our industry;
- The sharing of local and national health care information and data, used to assist members with internal management decisions or to explain a particular health care issue to internal or external audiences.
- Assisting hospitals in providing safe patient care, promoting a healthy workforce and community to achieve health improvement for Oklahomans.

## Benefits

Specific benefits provided to OHA Type I institutional members include the following:

- A weekly Association newsletter – HOTLINE;
- Legislative updates, published periodically during legislative session to track key pieces of legislation of importance to health care organizations;
- OHA Alerts, published periodically to provide members with information of special importance and urgency;
- Attendance at any OHA-sponsored program at the reduced member rate;
- Access to annual OHA member information, including a comprehensive list of ALL Oklahoma hospitals, contact information and administrative personnel. In addition, it lists OHA board, council and committee members;
- Opportunity to participate in and derive information from:
  - Comprehensive Wage & Salary Survey of hospital personnel; the survey includes more than 280 job titles, including hospital execs. The results tool allows members to run an unlimited number of custom job reports, and includes pay practices and benefits information.
  - DATABANK: a Web-based database of hospital utilization and financial performance indicators.
  - The OHA Hospital Productivity Management Program; a straightforward and efficient, yet valuable, program to compare productivity data at the nursing unit and department level.

## Cost

See the attached explanation sheet regarding the dues structure for institutional membership.

## Application

To apply for Type I institutional membership, complete the application form and return it, along with a copy of your organization's bylaws, if available.
