Testing to begin with facility upon agreement of install date. Once an order is placed and timeline confirmed, our assigned Analyst will work with the client and vendor to complete the project in a timely manner. If there is no client and/or vendor engagement for a period of 10 business days, the assigned contacts for the project will be alerted and the project will be monitored for signs of progress. If after 10 additional business days there is still no client and/or vendor engagement, the project will be flagged as inactive, removed from the assigned Analyst and returned to a Resource Coordinator to discuss a future timeline for the project.
