REMARKS

Remarks or inquiries by the audience not pertaining to any item on the agenda.

Tammy Zecca with the library board spoke on the promises of budget amendments for the library books, computers, and materials. Stating that it was promised to be amended and it was just kicked down. She stated that it was important because the budget was cut almost by half stating that if we don't show that the city doesn't spend enough money on the library then the state doesn't think that we care about our library and we lose state funding. She stated her concerns that there were two new positions created, a safety officer and an assistant city manager. Her concerns were where is the money for those positions coming from if the city couldn't give the library the money that it deserved.

Gary Kerbo spoke next stating that last September he came and spoke about the dirt pile next to his property wanting it shut down and the taco stand next to him wanting it shut down as well. Stating that these properties are not commercial properties. He stated that he came back in November, and the city said they would have it done by the end of the year but nothing has still been done. After discussion by the Mayor and Attorney Kendall it was stated by attorney Kendall that he will get with the City Clerk and the city should be able to have a special zoning board meeting mid May or at the June meeting.
